ACKNOWLEDGEMENT

First and foremost I offer my sincerest gratefulness to my guide, Dr. Kodge B.G, who has supported me throughout my thesis with his patience and understanding whilst allowing me the room to work in my own way. I attribute the level of my degree to his encouragement and effort and without him this thesis, too, would not have been completed or written. One simply could not wish for a better or friendlier guide.

I will use this opportunity to thank a number of people which has provided me with valuable support in different ways during the process of writing this thesis. First, I would like to thank Professor R.R. Deshmukh and dear friend Dr. Parag Bhalchandra who invited me to start on my doctoral study. Without his support and continuing encouragement, this thesis would never have been initiated. The cooperation has with their searchers at Prof. U.V. Thete, Prof. V.N. Patange, Prof. A.M. Choudhari, and Prof. S.C. Jadhavar, Kulkarni S.S., Joshi R.G.

Thanks also go to anonymous reviewers which have commented earlier drafts of the thesis, and different papers and reports which have been produced during this exciting period and Present and past colleagues in the Department of Computer Science. I remembered for both professional discussions and social gatherings. Cordial thanks to my best friend Late Hon. Shri. Vijay Chavan and dear friend Sachin Pardeshi.

The inspiration from the students I have advised on different assignments is highly appreciated, a special thanks goes to Pravin Ambhore and Yogesh Dongre implements ability of some of my ideas.

The support to me Dr. Pritamkumar Acharya determining for completing this thesis. Thanks for believing in my vague ideas which slowly but steady have been formed into the results presented in this thesis. Thanks also go to my Father, elder brother Ravi Acharya, and my brother-in-law Milind Bansode and my sister Jyoti Bansode for supporting and believing in me during all years.

Special thanks go to my nearest friend and wife Archana, for supporting me to finalize this work, and for keeping up with all my long nights in front of the computer. Finally, my two Childrens ku.Pari and Pranmya are particularly remembered for constantly reminding me on that life is certainly more than work.
