ACKNOWLEDGEMENT

The great expectations from the self-employment to educated unemployed youth (SEEUY) scheme in solving chronic and baffling unemployment problem in India has led me, to enquire into the study of the scheme in my native state viz., Tamil Nadu. Even in my college days I had an innate fascination for the study of the subject 'Banking'. The topic that I have selected for my research at the M.Phil level viz., "The progress of Lead Bank Scheme in South Arcot District" was also pertaining to the same subject.

I am fortunate that I could do this work in the Department of Commerce, Madras University P.G. Extention Centre, Salem. I wish to express my gratitude to Madras University, my alma mater, for bestowing upon me an opportunity to undertake this doctoral programme on part-time basis.
