ACKNOWLEDGEMENT

I am deeply indebted and extremely grateful to Dr. E. THANDAPANI, Reader in Mathematics, Madras University P.G. Extension Centre, Salem - 636 011 for his inspiring guidance and unlimited encouragement throughout the period of study and work.

I owe my gratefulness to Dr. D. SOMASUNDARAM, Professor and Head of the Department of Mathematics, Madras University P.G. Extension Centre, Salem-11, for having provided necessary facilities throughout my period of study. My cheerful thanks are due to Dr. G. BALASUBRAMANIAN for his friendly generous and expert suggestions.

I am very much indebted to The Commissioner of Collegiate Education, Madras-600 006, for granting permission to carry out this research work. Also, I thank The Principal and Members of Staff (both teaching and non-teaching) of Govt. Arts College, Tiruvanamalai-606 603, for their kind co-operation.

I wish to express my whole hearted gratefulness to B.K. SHIV KANYAJI, SHANTHI DHAM, Madras - 600 040 for her constant encouragement and for having provided me with necessary facilities whenever I had to stay at Madras.

Thanks are due to Mr. S. ANDREWS WILLIAM of Adyar Students Xerox, Parrys Corner Branch, Madras - 600 001 for his patient and excellent laser type setting of this work.

Above all, my sincere thanks are due to the Lord 'The Supreme' for providing this opportunity of enlightenment.

S. PANDIAN
