ACKNOWLEDGEMENT

“Acknowledgement is the only way to keep love alive” — Barry Long

Among others, I believe this page is one of the most widely read pages of the entire thesis. I would like to mention herein all the people and their valuable contribution throughout my entire PhD work. Firstly, I would like to extend my esteemed gratitude to my supervisor Dr. Pankaj Bharali, for his constant guidance and immense support during my research work. I truly acknowledge his expertise, understanding which made it possible for me to work on a topic that was of great interest to me.

I am highly indebted to the honorable Vice-Chancellor of Tezpur University Prof. Madan M. Sarma (Acting) and Prof. Mihir K. Chaudhuri, former Vice-Chancellor of Tezpur University for allowing me to carry out my research in a cordial and scientific environment. I also thank the entire university fraternity for facilitating me with all the basic necessities to make my stay in the campus comfortable during the period of my research work.

I offer my sincere thanks to Prof. Ashim Jyoti Thakur, Head, Department of Chemical Sciences, Tezpur University for his valuable support and help in various aspects. I am also grateful to my Doctoral Committee members, Prof. Ramesh Ch. Deka, Professor and Dr. Nayanmoni Gogoi, Assistant Professor, Department of Chemical Sciences, Tezpur University for their suggestions and inspiration throughout my PhD research period. I am also thankful to all the teachers and non-teaching staff of the Department of Chemical Sciences, Tezpur University for their help and cooperation invariably at all times.

I am glad to offer my thanks to Prof. Yusuke Yamada, Osaka City University, Osaka, Japan, Dr. Putla Sudarsanam, Leibniz Institute for Catalysis, Germany and Prof. Suresh K. Bhargava, RMIT University, Australia for their invaluable help during my research period.

It is my heartfelt thanks to Tezpur University and Department of Science and Technology (DST), New Delhi for their financial support. I also thank the reviewers of my manuscripts for their comments and suggestions which helped me to improve my
research work. I would like to thank SAIC, Tezpur University; SAIF, North-Eastern Hill University (NEHU); CIF, Indian Institute of Technology, Guwahati (IITG) and RMIT Australia for allowing me to carry out my research work with their instrumental facilities.

Thanks to all the research scholars of the Department of Chemical Sciences, Tezpur University. I am very much thankful to my labmates Biraj Jyoti Borah, Kumar Kashyap Hazarika, Dipshikha Bharali, Pangkita Deka, Rasna Devi and Chiranjita Goswami for their help throughout the entire period. My joy knows no bound in expressing my cordial gratitude to my friends especially Nirmali Bordoloi, Banashree Sahariah, Ashmita Bharali, Anamika Kalita and Richa Sharma for their constant support and encouragement during my PhD research period. Thank you for everything.

Last but not the least; I would like to thank the Almighty for his blessings and strength throughout my entire life. I revere the patronage and moral support extended with love, by my parents, my in-laws and all the family members for their unconditional love, blessings and continuous support in every step of this journey; without whom my life is incomplete. I would like to thank my husband, Bhaskar Bikash Saikia for all his patience, encouragement, love and being the greatest strength throughout my life. I would like to thank all the well-wishers for their blessings and prayers which encouraged me to complete this research work. Thank you everyone.
