I would be failing in my duties if I do not express my deepest and loving gratitude to my adorable twin daughters Tyulip and Twishaa.
who mean the world to me. Their love and affection gave me constant energy and their smiling faces and warm hugs have been my biggest stress buster. I feel guilty of having deprived them of my care due to my visits to Kurukshetra University from Delhi and having taken away their share of quality time and devoting it to my study. Indirectly and unknowingly they have made the biggest contribution in my research work. I love them with all my heart and soul and dedicate my achievement to them.

This work would not have taken the final shape without the unwavering support, tremendous encouragement, unparallel affection, silent sacrifices and blessings of my respected parents Shri Man Singh and Smt. Sushila. Words are futile to express my indebtedness to my mom and dad. My highest regards to them for helping me sail through the toughest times of my research coupled with family and work-related commitments.

Last but not the least, I thank the Almighty for blessing me with strength and endurance to overcome all the odds and achieve my aim.
