Research is never the outcome of single individual’s talent or efforts. I have seen and experienced the countless blessing showered on me by my parents, family members, teachers, friends and all my well-wishers, knowing the God’s hand is there, always guiding and leading me to greater heights. It provides me pleasure to convey my gratitude to all those who have directly or indirectly contributed to make this work a grand success. I must make special mention of some of the personalities and acknowledge my sincere indebtedness to them.

I express my deep sense of indebtedness and gratitude to my research guide Dr. (Prof.) Anita Lalwani, M. Pharm., Ph.D., for her advice and guidance during the course of the research programme. Inspite of her busy academic work and commitments as Professor and other administrative responsibilities, Dr. Lalwani, has patiently and critically gone through the manuscript. Her constructive critic has helped me in presenting the thesis in its present form. To work under the guidance of such an eminent person has been a great and experience, which will go a long way down my memory lane in my life. My heartily thanks go to her.

I am extremely thankful to Dr. Pragna Shelat, HOD, Department: Pharmaceutics, KBIPER, Gandhinagar, for her valuable suggestions, comments at various stages of the work and generously extending all helps for the conduct of the research work.

I would like to express my sincere thanks to respected Dr. Gaurang Shah, Dr. Punit Parejiya, Dr. Shrikalp Deshpande, Archita mam for their help to pursue this work for Ph. D. Degree in the college.

Words are an inadequate medium to express my deep sense of gratitude to my friends/colleagues Rakshit Patel, Nirav Patel, Vipul Sapavadiya, Dr. Milan Ranchh, for their keen interest, propelling inspiration, informative and critical discussions, valuable suggestions and directions, selfless support and persistent encouragement throughout this investigation.
The encouragement and co-operations rendered by the in-law’s family - Mr. Mahadevbhai Patel, Ramaben M. Patel, Mr. Amit Patel, Dr. Piyush Patel, Dr. Natavar Patel, Nimisha N. Patel and Keyur are difficult to express in words. I am very much thankful to them, who always provided me the required emotional support and their prayers to almighty god that has made me to achieve this stage.

Finally the author wishes to offer sincere gratitude and apologies to respected parents – Ahshvinbhai and Arunaben, and family members – wife Reeta, beloved daughter – Yashvi, Son-Shaurya, and my elder bother Rupeshbhai, Ankitababhi, Sister Priti and Jiju Nimesh Shah, Manali and Khushi for patiently enduring certain duties lapses and difficulties during the period of the research work.

My sincere thanks are due to the various investigators and research pharmacist whose research works helped me a lot in setting the direction and contents of my present research work.

Last but not least the Almighty God, without their blessings and grace, I will be not in position to reach this stage.

PRATIK SHAH
