Acknowledgements

Pursuing a Ph.D. project is a both painful and enjoyable experience. It's just like climbing a high peak, step by step, accompanied with bitterness, hardships, frustration, encouragement and trust and with so many people's kind help. When I found myself at the top enjoying the beautiful scenery, I realized that it was, in fact, teamwork that got me there. Though it will not be enough to express my gratitude in words to all those people who helped me, I would still like to give my many many thanks to all these people.

In the first place I would like to record my gratitude to Prof. K. K. Dua for his supervision, advice, and guidance from the very early stage of this research as well as giving me extraordinary experiences throughout the work. Above all and the most needed, he provided me unflinching encouragement and support in various ways. His truly scientist intuition has made him as a constant oasis of ideas and passions in science, which exceptionally inspire and enrich my growth as a student, a researcher and a scientist want to be. I am indebted to him more than he knows.

I gratefully acknowledge Dr. (Mrs.) Shabad Preet for her advice, supervision, and crucial contribution, which made her a backbone of this research and so to this thesis. Her involvement with her originality has triggered and nourished my intellectual maturity that I will benefit from, for a long time to come.

My sincere regards are due to most revered Dr. S.J.S. Flora, Scientist, E., Division of Pharmacology and Toxicology, DRDE, Gwalior, for his indispensible guidance, constructive suggestions and providing me facilities for conducting the experiments.

I owe my most sincere gratitude to Prof. Soam Prakash and Dr. C. N. Srivastava, who gave me the opportunity to work with cooling centrifuge, electronic microscope and gave me untiring help during my difficult moments.
Sincere thanks are extended to Prof. Sant Prakash and to Dr. (Mrs) Alka Prakash on behalf of devoting their precious time and made many valuable suggestions which indeed helped improvement of this thesis.

I would also acknowledge Dr. D. P. Gupta and Mr. Gurusaran Satsangi for their generous help for histological work. I pay sincere thanks to Dr. (Mrs) Amla Chopra for her advice and willingness to share bright thoughts with me, which was very fruitful for shaping up my ideas for research. I know that she strained every nerve to make this work up to the mark.

I warmly thank Dr. (Mrs) Sapna Agarwal, M.D., for her valuable advice and friendly help. Her extensive discussions around my work and interesting explorations in pathology have been very helpful for this study.

I am heartily thankful to Dr. A. K. Bhatnagar, Dean, Faculty of Science, for his encouragement, help and cheerful nature.

I owe my most sincere gratitude to Dr. Pravin Kumar Head & Jt. Director, Animal facility division, DRDE, Gwalior, who provided me animals for my experiments and gave me untiring help during my difficult moments.

My warm thanks are due to Prof. Kamaluddin Ph.D., and Head of Department of Chemistry, and Prof. Ajay Kumar, IIT Roorkee, who helped me in metal estimation by AAS. Their kind support and guidance have been of great value in this study.

I am also thankful to Prof. L. D. Khemani, Head, of the Department of Chemistry for his encouragement and co-operation. I consider it a pleasant duty to express my sincere appreciation to Dr. Sahab Das, Dr. (Mrs.) Shalini Srivastava and Dr. Mannmohan Srivastava of Department of Chemistry for their timely assistance and encouragement throughout the work.

My special thanks are due to Dr. (Mrs) Kiran Satsangi for providing information on applying seismic sounding method in the field.

Thanks are due to Dr. Lalit Mohan, Dr. (Mrs.) Preeti Rawat, Mr. Manish Mohan Verma and Dr. (Mrs) Prajwala Maurya research scholars of the Zoology Department for their helpful nature and assistance in various ways.

My thanks are due to Mrs. Pratibha Singh, Mrs. Jaya Srivastava, Ms. Shivani Gupta, Ms. Gulshan Chaudhury, Ms. Priyanka Singh, Ms. Sheweta Singh and Ms.
Sneha Angjala, Mr. Aadesh Pratap Singh When they were little they allowed me to do the necessary research.

My keen appreciation goes to Ram Bachan and Vinay Ram, lab technicians of the Department of Zoology for their valuable assistance in the field. Without their help, the field work would not have been accomplished in time.

My deepest gratitude goes to my family for their unflagging love and support throughout my life; this research was simply impossible without them. My father, Ramesh Chand Gaurav in the first place is the person who put the fundament my learning character, showing me the joy of intellectual pursuit ever since I was a child. I am indebted to my mother Smt. Malti Gaurav for her care and love. She had never complained in spite of all the hardships in her life. I remember many sleepless nights with her accompanying me. Mother, I love you. I feel proud of my sister, Ms. Poonam Gaurav for her talents. My elder brother Mr. Puneet Gaurav Singh, he had been a role model for me to follow unconsciously when I was a teenager and has always been one of my best counselors.

Words fail me to express my appreciation to my husband Mr. Megh Singh and my in laws whose support, love and persistent confidence in me, which has enable me to complete this work. No words are enough to thank them.

Deepti Gaurav
