DECLARATION

I hereby declare that the thesis entitled “A Study of Efficiency of Indian Stock Market” is the result of my own research studies, and has not been submitted earlier to any other University for the award of any Degree, Diploma, Associateship, Fellowship or any other similar title.

The thesis is prepared under the supervision and guidance of Dr. T. Mallikarjunappa, Professor and Chairman, Department of Business Administration, Mangalore University.

Place: Mangalagangothri

Date: 27.03. 2015

(Janet Jyothi Dsouza)
Acknowledgment

I have taken efforts in completing this research work. However, it would not have been possible without the kind support and help of many individuals and organizations. I would like to extend my sincere thanks to all of them. I am thankful for their aspiring guidance, constructive criticism and friendly advice during my research work.

I wish to express extreme gratitude and indebtedness to Almighty God for having given me health, energy and confidence to carry out this research study. I am highly indebted to Prof. T. Mallikarjunappa, Chairman and my beloved research guide for his guidance, constant encouragement, valuable suggestions and comments at every stage of my research study. I am grateful and highly appreciate his immense knowledge, patience, motivation, and enthusiasm which helped me in completing my thesis work. I am sincerely grateful to Prof. P. Pakkeerappa, Prof. Mustiary Begum; Dean Faculty of Commerce, Prof. T. N. Shreedhara, Dr. Chandrashekar R. and Dr. K. Puttanna for their moral support and encouragement. My special words of thanks are due to Mr. Vimalan, Associate in KPMG, Bangalore, for the valuable help, advice and support that he had extended to me throughout my doctoral study. I remain ever grateful to my beloved friend Mr. Ravinarayana K.S, Assistant Professor, Department of Business Administration, VSK University, Bellary, who deserves special credit for his continuous help, encouragement and support. I express my sincere thanks to the honorable vice-chancellor and Registrar of Mangalore University. I am grateful to the UGC for awarding me junior and senior research fellowship for my doctoral study. I am also thankful to Mangalore University Librarian and the staff for their help during my stay in the university. I offer my sincere thanks to Prof. P.S Aithal, Principal, to all my beloved teachers, faculty members, and office staff of Srinivas Institute of Management Studies, Mangalore, for their encouragement and support.

In addition I thank Mr. Vasantha G., Mr. Harish S.N, Dr. Gayathri Devi, Dr. Paduranga Nayak, Harish T. Kulal, Mr. Masoud Parsa, and Ms. Mahsa Maleki for their support, encouragement and concern. I am also grateful to Mrs. Irin Pinto, Mr. Mohan, Mr. Manual Tauro, Mr. Alvin D’Sa, Ms. Divya, Ms. Shilpashree, Mr. Maruthi, Mrs. Rajani, Mrs. Soumya and Mrs. Vidya for their constant support and help. I would like to thank my parents Mr. Valerian Dsouza and Maria Noronha for their endless love and support. I am very grateful to my beloved brothers Mr. Jeevan and Mr. James for their love and real inspiration. I thank Mr. John Dsouza and family, Saturnine Dsouza and family, Jerald Dsouza and family, Cyril Noronha and family, Leena Sequeira and family, Mary Dsouza and Charles Noronha for their love, kindness, support and prayers. I would also like to acknowledge and appreciate the support, blessings and prayers extended by all well-wishers.

(Janet Jyothi Dsouza)
## Table of Contents

### CHAPTER 1
**Introduction**
- 1.1 Efficient Market Hypothesis (EMH) ........................................ 3
- 1.2 Indian Securities Market ............................................................... 5
- 1.3 Statement of the Problem ................................................................. 7
- 1.4 Scope of the Study .......................................................... 10
- 1.5 Objectives of the Study ......................................................... 10
- 1.6 Hypotheses of the Study .............................................................. 11
- 1.7 Limitations of the Study .............................................................. 12
- 1.8 Chapter Scheme .......................................................... 12

### CHAPTER 2
**Conceptual Frame Work of Efficient Market Hypothesis** ........................................ 15
- 2.1 Introduction .......................................................... 15
- 2.2 Perfect Capital Market ............................................................... 16
- 2.3 Classification of EMH ................................................................. 18
- 2.3.1 Random Walk Hypothesis (RWH) ........................................ 18
- 2.3.2 Semi-Strong Form of EMH .................................................. 20
- 2.3.3 Strong Form of EMH ................................................................. 21
- 2.4 Implications of EMH ................................................................. 23
- 2.5 Problems with the EMH ............................................................... 24
- 2.5.1 Information Asymmetry .............................................................. 24
- 2.5.2 Investors are not rational .......................................................... 25
- 2.5.3 Stock market crashes ................................................................. 25
- 2.6 Market Anomalies ................................................................. 25
- 2.6.1 The January Effect ............................................................... 25
- 2.6.2 Day of the week Effect ............................................................. 26
- 2.6.3 Turn-of-the-Calendar Effect ..................................................... 26
- 2.6.4 Small Firm Effect ................................................................. 27
- 2.6.5 P/E Ratio Effect ................................................................. 27
- 2.6.6 Neglected Stocks ................................................................. 27
- 2.6.7 Announcements and Anomalies .............................................. 28
- 2.6.8 Holiday effect ............................................................... 29

### CHAPTER 3
**Survey of Literature on the Efficient Market Hypothesis** ........................................ 30
- Part A .......................................................... 30
  - 3.1 Empirical Evidences of Random Walk Hypothesis (RWH) ................ 30
    - 3.1.1 Empirical Evidences which Supported RWH .................................. 30
    - 3.1.2 Empirical Evidences against RWH ........................................... 42
    - 3.1.3 Mixed Empirical Evidences of RWH ........................................ 66
  - Part B .......................................................... 70
    - 3.2 Empirical Evidences of Semi-strong EMH .................................... 70
      - 3.2.1 Empirical Evidences Supporting Semi-strong EMH .......................... 70
      - 3.2.2 Empirical Evidences against Semi-strong EMH ............................ 79
  - Part C .......................................................... 116
    - 3.3 Empirical Evidences of Strong-form EMH .................................... 116
    - 3.4 Conclusion ............................................................... 139

### CHAPTER 4
**Empirical Examination of Random Walk Hypothesis** ........................................ 140
4.1 Introduction ........................................................................................................... 140
4.2 Sample, Data and Methodology .......................................................................... 141
4.2.1 Runs Test ......................................................................................................... 142
4.2.2 Unit Root Tests .............................................................................................. 143
4.2.3 Autocorrelation Test ....................................................................................... 144
4.2.4 Variance Ratio Test ......................................................................................... 144
4.2.5 GARCH (1, 1) Model ..................................................................................... 146
4.2.6 EGARCH Model ............................................................................................. 146
4.2.7 TGARCH Model ............................................................................................. 147
4.2.8 PGARCH Model ............................................................................................. 147
4.3 Results and Analysis .......................................................................................... 149
4.3.1 Descriptive statistics .................................................................................... 173
4.3.2 Runs Test ......................................................................................................... 193
4.3.3 Unit Root Test ................................................................................................. 206
4.3.4 Autocorrelation test ....................................................................................... 258
4.3.5 Variance ratio test ......................................................................................... 298
4.3.6 GARCH Models .............................................................................................. 306
4.4 Conclusion ........................................................................................................... 331

CHAPTER 5
Stock Price Reactions to Earnings Announcements: Evidence from Indian Stock Market

5.1 Introduction .......................................................................................................... 333
5.2 Sample and Data ................................................................................................ 334
5.2.1 Classification of Companies into Portfolios .................................................... 335
5.3 Methodology ....................................................................................................... 337
5.3.1 Abnormal Return Measures .......................................................................... 337
5.3.1.1 Mean Adjusted Model: ............................................................................ 338
5.3.1.2 Market Adjusted Model: ......................................................................... 338
5.3.1.3 OLS Market Model: ................................................................................ 338
5.3.2 Average Abnormal returns (AAR) ................................................................ 339
5.3.3 The Cumulative Average Abnormal Return (CAAR) ..................................... 340
5.3.4 Standardized Abnormal Return (SAR) and Standardized Cumulative Average Abnormal Returns (SCAR) ................................................................. 340
5.3.5 Parametric Significance Test ......................................................................... 341
5.3.5.1 The t test statistic for AARs: .................................................................... 341
5.3.5.2 The t test statistic for CAARs ................................................................ 342
5.3.6 Non-Parametric Significance Test .................................................................. 343
5.3.6.1 Runs test ................................................................................................ 343
5.3.6.2 Sign test ................................................................................................ 344
5.4 Result and Analysis ............................................................................................. 345
5.4.1 March 2006 Quarter ...................................................................................... 345
5.4.2 June 2006 Quarter ......................................................................................... 356
5.4.3 September 2006 Quarter .............................................................................. 369
5.4.4 December 2006 Quarter ............................................................................... 379
5.4.5 March 2007 Quarter ...................................................................................... 391
5.4.6 June 2007 Quarter ......................................................................................... 404
5.4.7 September 2007 Quarter ............................................................................... 415
5.4.8 December 2007 Quarter ............................................................................... 425
5.4.9 March 2008 Quarter ...................................................................................... 438
5.4.10 June 2008 Quarter ....................................................................................... 448
