

ACKNOWLEDGEMENT

I take this opportunity to express my deep sense of gratitude to Prof. V. Thiagarajan, M.Sc., Ph.D., Department of Chemistry, Ramakrishna Mission Vivekananda College, Madras-4 for having suggested the problem and supervised the work. I also wish to acknowledge my indebtedness to Late Prof. T.P. Visvanathan, M.Sc., Ph.D. who initiated me into this field of research.

I am grateful to Prof. N. Venkatasubramanian, M.A., Ph.D., C.Chem., F.R.S.C., Principal and Head of the Department of Chemistry for having allowed me to work as a Research Scholar in Ramakrishna Mission Vivekananda College and for many useful and enlightening discussions during the course of my work.

I am indebted to the Management, Principal and to the Head of the Department of Chemistry, A.V.V.M. Sri Pushpam College, Poondi who had given permission to do a part of research work in the chemistry laboratory. I thank University Grants Commission, New Delhi for providing me financial assistance for a part of this project.

I am extremely happy to express my sincere thanks to Dr. S. Sundaram, Mr. R. Chandrasekar and Mr. P.S. Raghavan for their kind cooperation and help rendered in several ways.

I thank Mr. S. Sivaramasubramanian for a careful and neat execution of typing of the thesis.

P.S.M. KANNAN.

CONTENTS

	Page No.
1. Introduction	1
2. Experimental	10
<u>Results and Discussion.</u>	
3.1. Cleavage of esters of monocarboxylic acids other than phenyl acetates and phenyl benzoates	31
3.2. Cleavage of phenyl acetates and phenyl benzoates	47
3.3. Cleavage of diesters	56
3.4. Cleavage of acid anhydrides	64
3.5. Cleavage of lactones	69
3.6. Cleavage of Aryl p-toluenesulphonates	74
3.7. Cleavage of N-Aryl benzenesulphonamides	83
3.8. Cleavage of anilides	93
3.9. Cleavage of phenyl N-N' diphenylphosphoramidates	100
3.10. Solvent effects on Cleavage reactions	107
4. Summary	121
5. References	126
