ACKNOWLEDGEMENTS

First and foremost thanks to the authorities of Periyar University, Salem for providing me University Research Fellowship (URF) for carrying out research in the Department of Physics, Periyar University, Salem.

This research has been nurtured by my respectable Guide Dr. G. Velraj, Department of Physics, Periyar University, Salem who has been the most encouraging, flexible and patient advisor. He has turned stressful situations into stepping stones. Most of all, he believed in my abilities and allowed me to express my individuality, as a result the completion of this thesis was both a pleasure and a rewarding experience. His respect for humanity is greatly appreciated. I wish to thank him for the fruit of our constant discussions throughout all stages of the present work.

I also thank Dr. V. Krishnakumar, Professor and Head, Department of Physics, Periyar University, Salem for his enormous generosity. His ideas and influence created lots of hope in my thesis. He has instilled integrity and his wisdom, encouragement and confidence in me were always a source of inspiration.

In the Department of Physics, I have benefited considerably from the academic contributions of the faculty and I am proud to be associated with them. As well, I am grateful to Dr. P. Kumaradhas, Dr. P. M. Anbarasan, Dr. L. Kavitha and Dr. C. Sekar, Department of Physics, Periyar University, Salem.
I am grateful to the following archaeological departments who have provided me the samples for my research work, The Director, State department of archaeology, Chennai, The Superintending Archaeologist, Archaeological survey of India (ASI), Salem and Madras branch, The Professor and Head Department of Ancient History and Archaeology, University of Madras, Chennai and The Professor and Head, Department of Epigraphy and Archaeology, Tamil University, Thanjavur. I owe immense thanks to Several individuals, S.Mathivanan Conservation Assistant , Archaeological survey of India (ASI), branch office, Salem, Dr.K.Rajan, professor and Head, Department of Epigraphy and Archaeology, Tamil University, Thanjavur, V.Selvaraj, project assistant, Department of Epigraphy and Archaeology, Tamil University, Thanjavur, K. Thirumoorthy, Archaeological survey of India (ASI) Chennai, Dr. Parvathi, Department of Ancient History and Archaeology, University of Madras, Chennai for their guidance and perseverance in collection of samples for the present study.

I am grateful to the following laboratories for facilities utilized in this study; The Director, Ind-Ag inspection and testing Lab, Coimbatore for Chemical analysis, The Staff-in-charge, Centralized Instrumentation Service Laboratory (CISL), Annamalai University, Annamalai nagar to record Fourier transform infrared (FT-IR) spectra and Scanning Electron microscope (SEM) with Energy Dispersive X-ray fluorescence Spectrometer (EDX), The Director, Central Electrochemical research institute (CEMRI), Karaikudi to record XRD
patterns, The Professor and Head, Department of Chemistry, Government College of Engineering, Salem for refiring the samples, The Professor and Head, Department of Chemistry, Periyar University, Salem for porosity measurement, Dr.D.Ponraj, Scientific officer-F, Indira Gandhi Centre for Atomic Research (IGCAR), Kalpakkam for irradiation and Dr.P.Sambasiva Rao, The Professor and Head, Department of Chemistry, Pondicherry University, Pondicherry to record ESR spectra.

Fellow grad students have also furthered my education and research objectives. These wonderful friends, who selflessly offered logistical support in many instances, include Mr. A. Mohamed Musthafa, V. Hariharan, S. Meyvel and M. Vigneswari. I must thank them for their generous assistance indubitable character and committed friendship. I also thank Mr. S. Srinivasan, Department of Chemistry, Annamalai University, Annamalai Nagar who helped to record FT-IR and SEM.

Above all, I am grateful to my family for their infinite love, steadfast support and patience. This thesis could not have been completed without their involvement and I am forever indebted to them.

K.Janaki
