ACKNOWLEDGEMENTS

The completion of this research work would not have been possible without the encouragement, help and support of many individuals. It is my privilege to thank the people who have supported and guided me throughout this research work.

I am grateful to Dr. Francis C. Peter, Vice Chancellor, St. Peter’s University for giving me an opportunity to carry out my research in the University.

I am very much thankful to Dr. M.A.Dorai Rangasamy, Registrar, St. Peter’s University, Dr. D.S. Ramachandramurthy, Director (R&D) and Dr. S. Gunasekaran, Dean (R&D), St. Peter’s University for their constant help and support.

I would like to express my deep and sincere gratitude to my supervisor, Dr. N.P. Subramaniam, Assistant Professor, Department of Electrical and Electronics Engineering, Pondicherry Engineering College, Pondicherry, for his kind cooperation, valid suggestions and valuable guidance which made me complete the research work successfully.

I also express my gratitude to all my Doctoral Committee members Dr. P. Somasundaram Associate Professor, Department of Electrical and Electronics Engineering, CEG Campus, Anna University and Dr. S. S. Dash, Professor, Department of Electrical and Electronics Engineering, SRM University.

I thank specially Dr. K. Balaji, Professor and Head, Department of Electrical and Electronics Engineering, St. Peter’s University for their help during this research.

My gratitude towards my company, Tamil Nadu Electricity Board and its employees for paving the way for my success in completion of research work and encouragement given by my superiors Er. R. Krishnamoorthy & Er. S. Senthilkumar is to be kept close to my heart.

Finally, I would like to thank all those who were directly or indirectly helpful in carrying out this research.
