ACKNOWLEDGEMENT

I feel deprived in vocabulary when want to thank the almighty god for the shower of his precious blessings despite of which I completed my doctoral dissertation. This was the elegance of the almighty god, which shines and I met with my esteemed supervisor Dr. Sunil Kumar, Reader, Punjab School of Economics, Guru Nanak Dev University, Amritsar. I wish to express my deep sense of gratitude and indebtedness to him for his encouraging and enthusiastic guidance and helpful criticism during the course of this work. I earnestly believe that without his right suggestions, this work would not have been completed. I am extremely thankful to Dr. Parminder Singh, Professor and Head, Punjab School of Economics, and Dean, Faculty of Economics and Business, Guru Nanak Dev University, Amritsar, for helping me in each possible manner. Thanks are also due to Dr. Satish Verma, Professor, Punjab School of Economics, for providing me the constructive comments and passionate teachings.

Further, I would like to acknowledge the worthy financial assistance of University Grant Commission (UGC), New Delhi, provided to me under the JRF/UGC scheme to complete my dissertation. Without the financial aid of UGC, this work could not have been completed under the stiff financial conditions faced by me. Therefore, the UGC deserve a note on appreciation for its efforts to promote research via providing JRF to deserving candidates.

I am also thankful to S. Mukhtiar Singh and S. Baktawar Singh, Librarians, Punjab School of Economics for their help in making best use of the library. Thanks are also due to Sh. Prakash Nirala, Assistant Director, Computer Center, Ministry of Statistics and Programme Implementation (MOSPI), New Delhi, for guiding me throughout my course work for developing my software ‘ASIFL-DHP 1.2’ to handle ASI firm level data. My sincere thanks are also due to the staff members of the Rattan Tata Library, Delhi School of Economics; Institute of Economic Growth Library, New Delhi; Jawahar Lal Nehru University (JNU) Library, New Delhi; Central Science Library, Delhi University; National Council of Applied Economics and Research (NCAER) Library, New Delhi; Library of Central Statistical Organization (CSO), New Delhi; for their invaluable help in procuring the relevant data and literature.

I will fail in my duties if I forget the names of Dr. Léopold Simar and Paul W. Wilson, Department of Economics, Clemson University, USA for providing me the computer software Frontier Efficiency Analysis in R (FEAR). Without their help, it would have been difficult for me to bootstrap Efficiency and Productivity Scores. I am also thankful to Johan B. Walden,
National Marine Fisheries Services, Massachusetts; and James E. Kirkley, College of William & Marry, Virginia Institute of Marine Science, USA, for sending me research papers and guiding me how to handle General Algebraic Modeling System (GAMS) software package to obtain technical efficiency and capacity utilization scores.

I am grateful to my father Sh. Naresh Kumar who has been a moving spirit behind all my achievements. I would also like to thank my mother Smt. Sheetal Arora, who has been a constant source of encouragement. Without the encouragement and moral support of my parents, I could never have been what I am today. I would also like to enlighten three hidden personalities, Sh. Narinder Dev Puri, Principal, Gyan Ashram Senior Secondary School, Amritsar; Sh. Suraj Prakash Gupta; and Mr. Jagminder Singh, for providing timely financial supports to complete my formal education at both graduation and post graduation levels. Without the support of these three persons, I could have never completed my formal education.

Among all these, I would like to owe my all present and forthcoming success in the field of Quantitative Economics to Sh. Jagdish Raj Sabharwal, Lecturer (Retd.), D.A.V. College, Amritsar. He was the person who polished me in the field of quantitative techniques and helped me to understand the subject without any financial gain.

Words do not come up to the mark to qualify the feeling in my heart for my dear brothers Rahul Arora, Research Fellow, Punjab School of Economics, and Gaurav Arora for helping me in each possible manner. My love is also due to my little cousin Abhishek Arora. The vocabulary also falls short to acknowledge the cooperation and moral support by my friends and colleagues Deepak Kumar (JRF/UGC), Gaurav Bhatia (JRF/UGC & IES), Dr. Manjit Singh, Amarjeet Singh Bhullar, and Mandeep Singh (JRF/Rajiv Gandhi National Fellowship). My thanks are also due to the heavenly blessings of my grandparents Late Sh. Dilbag Rai Arora and Leela Rani, and lively blessings of Sh. Madan Lal and Smt. Amjarjit Madaan. Further, I thank Mrs. And Mr. Ashok Arora, Mrs. And Mr. Rakesh Arora, Mrs. And Mr. Rajesh Madaan, my sisters and brothers-in-law, who always stood my aside at every cost. Moreover, I also thank all other persons to whom I could not acknowledge due to the limit of space.
