Acknowledgements

I take this opportunity with much pleasure to thank all the people who have helped me lot and inspired me through the course of my journey during my entire research work leading to final form of thesis being submitted for my Ph.D degree. It is a great pleasure and satisfaction to convey my gratitude to all of them in my humble acknowledgement.

Firstly I would like to express my heartiest gratitude, deepest regard and beloved thanks to my respected sir as well as my mentor Dr. Debprasad Chattopadhyay (Fellow British Society for Antimicrobial Chemotherapy and Deputy Director of ICMR Virus Unit, Beliaghata, Kolkata), a renounce Scientist with gentle behavior and havoc power of perception, motivation, positive attitude along with good mentality for helping and supporting during my entire research work. It is a great honor and a matter of pride to be a research scholar of an exceptionally brilliant scientist and wonderful person. I am indebted to him for teaching me with his innovative ideas the way to address a problem and shaping me scientifically as a researcher. Sir, your passion and dedication in science and your “never give up attitude” has always inspired me and enriched my growth as a student and researcher. Above all and the most needed thank you sir, for keeping faith in my abilities.

I would like to express my regard and sincere gratitude to my another research supervisor Dr. Amalesh Samanta, Professor of Division of Microbiology, Department of Pharmaceutical Technology, Jadavpur university, Kolkata, India for his continuous support and guidance throughout my research work. I am very lucky being a research student of such a nice academician.

I would like to acknowledge the Vice Chancellor, Pro Vice Chancellor, Registrar, Secretary Faculty of Engineering & Technology of Jadavpur University, Kolkata for their help in my academic affiliation and Ph. D registration.

I am grateful to officer in charge ICMR Virus Unit, Beliaghata, Kolkata for providing all laboratory facilities and allow me to go ICGEB, New Delhi for learning immunology and molecular biology as a part of mechanistic study of my research work.
I would like to express my regard to all scientists and employees of ICMR Virus Unit for their cooperation and help.

I am indebted to National Innovative Foundation, Ahmedabad, Department of Biotechnology and Department of Science and Technology for financial assistance in form of Project fellowship for carrying my doctoral research.

I would also give special recognition for a great deal of help to Dr. Bhaskar Saha (Scientist-G), NCCS, Pune, Prof. Gobardhan Das and Dr. Ved Prakash Dwivedi, ICGEB, New Delhi. They enriched me by providing me the ideas and guidance to design and fulfill the immunological work of my thesis.

My special heartfelt gratitude to my former lab mate Hemanta da, Paromita di, Soma di, Aruna di, Nidhi di, Anwesha di and other lab colleagues Rashmi, Apurba, Anwesha, Debmalya, Mousumi, Piu and Arnab for their endless cooperation.

I am thankful to the friendship and scientific support of my dearest Debyan, Amit, and Atanu.

Words are not enough to convey my deepest thank to my parents, my wife (Monalisa) and my family member (Kaku, Kakima, Bhi, Didi and Bon). My thesis is dedicated to their prayers, sacrifices, patience, love and unconditional support. Thank you so much for accepting me the way I am for supporting me throughout. This thesis would never be possible without your help and support.

Last but not least I would like to express my warm thanks to God almighty for giving me strength, courage and patience to complete my thesis and for bringing me so far in my academic career.

Durbadal Ojha
