Acknowledgements

Science is simply the word we use to describe a method of organizing our curiosity.

- Tim Minchin

I am lucky to have teachers who are always ready to answer my queries. And at the door of Ph.D. when you have bunches of queries then it's your luck to get someone who has the courage to open every bunch and smartly select the good stick and discard the waste.

I would like to express my sincere thanks to my supervisor Dr. Vikas Rishi for clarifying all my doubts and his long-term vision throughout my studies. His continuous support, motivation, and encouragement have helped me to understand the beauty of Science. I am blessed to get the opportunity of working with highly ambitious yet grounded person, from whom I have learnt how to solve problems no matter what they are. Despite his busy schedule, he makes the time available to discuss everything ranging from fascinating results to scientific breakthrough. His positive counseling has been invaluable on both academic as well as personal level, for which I am truly indebted.

My heartfelt thanks to the Prof. Vinay Gupta, University of Delhi and Dr. Monika Tomar, University of Delhi as I have started my research career as a trainee under their supervision. Their positive energy and skillful outlook motivated me to pursue PhD.

Sincere thanks to Dr. Joy K Roy, Dr. Ajay K Pandey, Dr. Monika Garg, Dr. Mahendra Bishnoi, Dr. Kanti Kiran, Dr. Nitin Singhal, Dr. Kaushik Majumdar, Dr. Siddharth Tiwari, and Mr. Shrikant Mantri for their presence and encouragement throughout my studies. I would like to extend my thanks to Prof. Wolfgang Dröge-Laser, University of Würzburg, Germany for providing plasmids in transient transfection assays.

I am also thankful to administrative and technical staff of NABI for all administrative and technical help. Thanks are especially to Dr. kamlendra, Dr. Pankaj, Miss Akriti, Mr. Atul, Mr. Jagdeep, and Mr. Shyam for their kind support on several occasions within and outside the lab.
My thanks extend to lab mates Koushik, Nishtha, Raminder, Shreya, and Dr. Aanchal for their continuous help and support to complete my studies. Koushik, your motivational support and faith in me helped me grow in difficult situations. Nishtha and Raminder, your help in performing experiments are highly appreciable. My gratitude extended to my seniors Dr. Anuradha Singh, Dr. Rohit Kumar, Dr. Yogesh Gupta, Dr. Kaushal, Anita, Jitesh, and Anshu for their suggestions and fruitful discussions to achieve my utmost goals. My thanks extended to my colleague’s cum friends Ashish, Amresh, Saurabh, Sipla, Dr.Ritesh, Mandeep, Shivani, Stanzin, Vishal, Anil, Amit, Venektesh, Aman, and Pankaj for their perceptive support and positive company.

My thanks go in particular to Koushik Shah and Pankaj Rana for being a good friend as well as awesome roommates.

It is also a pleasure to mention my long-term friends Yathartha, Harish, Himanshu, and Pradeep for their unvarying support, love, and were always being there for me irrespective of their tight schedule.

I would like to thank Ria for her continuous support and encouragement which helped me to achieve my goals.

Special thanks go to my landlord for providing me fantastic lodging and their innumerable help during my PhD.

I wish to extend my gratitude to everyone, who had contributed directly or indirectly to my thesis.

Most significantly, I would like to thank my family for everything and for their endless love, unconditional support, understanding, and encouragement. I am very thankful to my brothers Lovnish, Hitesh, Nitin, Akhil, Sarthak, Amit, Vishal, Kartik, Akshay, and Daksh for their love and care.
My sincere and heart full thanks extended to the NIPER, Mohali for providing help in performing experiments. I am very much indebted to Mr. Jaswant, NIPER, Mohali, for his technical support in performing circular dichroism related experiments.

Lastly, I extend my sincere acknowledgment to the Department of Biotechnology, Government of India, New Delhi for providing financial support to complete this work.
