ACKNOWLEDGEMENT

This thesis is the result of five years of hard work whereby I have been accompanied and supported by many people from different walks of life. It is a pleasant aspect that I have now the opportunity to express my gratitude to all of them.

First and foremost I thank my supervisor, Prof. Dr. V. Shanthi, Professor in the Department of Computer Applications, St. Joseph’s College of Engineering for her guidance, enthusiastic supervision, continuous encouragement and her valuable hours spent throughout this research. I am very grateful for the effort she has taken for giving shape and refining this work. Her every comment provoked new ideas throughout the research.

I would express my sincere thanks to the Director, and all other authorities of the ’Mother Teresa Women’s University’, Kodaikanal, India, for giving me an opportunity to carry out my research findings.

I am indebted to Thiru. M. V. Muthuramalingam, Chairman and Thiru. M. V. M. Velmurugan, C.E.O. of Velammal Engineering College for their permission and encouragement to pursue this research work. I am thankful to Dr. R. S. Kumar, Principal for his continuous encouragement. I would also like to thank my HOD, Department of Computer Applications for his support in this work. I would like to add a special thanks to Prof. Dr. E. R. Naganathan and Prof. Dr. M. Ramakrishnan, who gave me constant support and guidance throughout this research. I extend my thanks to colleagues and friends who have helped me directly or indirectly for the successful completion of this work.
I am indebted to Dr. S. Mahalakshmi, M.B.B.S., DGO, Gynaecologist, Abhijay Hospital Pvt. Ltd., Perambur and Dr. N. Gajendran, M.B.B.S, Diabetologist, JeePriya Nursing Home, Perambur, for their valuable guidance. I am also thankful to the staff of Precision Diagnostics, Aarthi Scans, Excel Diagnostics and Mediscan of Chennai for rendering their helping hand in acquiring the samples.

I also like to thank the reviewers of my papers whose valuable comments helped to improve my research work. I can never forget to include Dr. K. N. Shoba, MA, M.Phil., Ph.D, who helped in fine-tuning my technical writing.

I convey my deepest gratitude towards my parents and sisters who formed part of my vision and taught me the good things that really matter in life. A special thanks to my father Thiru. C. Ganesan, M.A. and my mother Smt. G. Chandra for their untiring efforts which motivated me to achieve my goals.

I express my heartiest thanks to my uncle Mr. K. Ramesh Babu, BE., MBA who has been my moral support throughout my research.

Especially, I would like to express my deepest gratitude and thanks to my husband Mr. P. Rajuresh, M.Com., MBA for his motivation, sacrifice and patience, which enabled me, complete this work. Without him, I am sure this PhD and the thesis would never have happened.

Last, but not the least I dedicate my thesis at the foot of ‘The Supreme’. This thesis would not have been possible without God’s blessings.

G. MALATHI
