ACKNOWLEDGEMENT

This study was conducted at the Laboratory of Molecular Cytogenetics and Environmental Health, Department of Life Science And Bioinformatics, Assam University.

First, I would like to express my deep gratitude to my supervisor Professor Dr. Sarbani Giri, Department of Life Science And Bioinformatics, Assam University for the excellent scientific guidance and support. She has always been more than a teacher and taught me by holding my hand for every small aspect of research with so much patience at each and every step of my research. I shall always cherish her valuable guidance, constant support and help. Her sincerity, patience and passion for research is a source of constant inspiration and it was a great privilege and good fortune for me to be able to do my Ph.D under her supervision.

I convey my deep gratitude to Dr. Anirudha Giri, Department of Life Science And Bioinformatics for his valuable advice and thank him from the core of my heart for all his help and efforts during my research. It was privilege to learn and gain from his experience.

I convey my sincere thanks to Dean, School of Life Sciences and Head, Department of Life Science And Bioinformatics for their encouragement and support.

I do record my sincere thanks to my seniors Dr. Mehnaz Mazumdar, Dr. Afifa Kausar and Dr. Salam Himika Devi for being such wonderful persons and being there for me always.

A very big ‘thank you’ to scholars in our molecular cytogenetics And environmental science laboratory specially Mr. Rajesh Paul, Ms. Dolly Talukdar, Ms. Purva Chakraborty, and all other scholars of department of life science And bioinformatics.

I wish to express my thanks to all my fellow research scholars at the Department of Life Science And Bioinformatics, special mention for Bibhas Rajkumar, Ratnabir Singha and Pankaj Chetia.

I convey my sincere thanks to Dr. Shuvasis Choudhury, Dr. Anupam Das Talukdar, Mr. Pinak Roy and Mr. Partha Sarathi Das of Assam University, Silchar for their support and encouragement. I would also like to convey my thanks
to Asishda, Kaurida, Mondalda, Jonardhan and all other non-teaching staff of the
department of Life science and bioinformatics. Thanks are also due to Bimalda who
helped me in taking care of my experimental animals.

I am thankful and greatful to SAIF, NEHU, Shillong and CIL, Assam University,
Silchar for analysis of the sample. I express my indebtedness to all of the
participants who consented to take part in this study making the whole project
possible.

This thesis has been supported by grants from University Grants Commission
(No. AUK-214/3/2008), New Delhi and JBNSTS fellowship (No.AU/DST
/NER/001/2011/JBNSTS-01) under NER-FIST PACKAGE, Department of
Science and Technology, India for their fellowships which I gratefully acknowledge.

I would like to convey my best regards and sincere thanks to Prof. Anita
Mukherjee, Head, Department of Genetics, University of Calcutta, Kolkata and all
research scholars of Laboratory of Cell Biology & Genetic Toxicology,
Department of Genetics, University of Calcutta.

I am proud to have a friend like Hili Das, Hillol Saha, Nazim Ahmed, Bijoy Roy
Bishnu Roy, Ranjit Chakraborty and Kishore Acharjee with whom I shared every
moment of my research life.

I convey my sincere thanks to Bishu da, Haru da, Subhash kaku, Bhaskar da and
Babul da for their support. I would like to my sincere thanks to all the staff of P. C.
Tea Industry, Udharbond specially Raju, Biswa, Virat, Saumyo, bablu, Islam
bhai and Riajulda and my well wishers.

I take this opportunity to thank my wonderful family who are the most precious part
of my life. I thank my father late Paresh Chandra Roy and mother Shila Rani Roy
for always being my side with so much love and affection. Thanks to my elder
brother Panna Lal Roy, elder sister Shilpi Deb, brother in law Bikram Deb and
cousin brother Piku Roy for making my life so beautiful and support, encouragement
and help in my research. You have always been in my heart and my
mind.

Place: Assam University, Silchar (Prasenjit Roy)
Date: October, 2012
