Pursuing a Ph.D. project is a both painful and enjoyable experience. It's just like climbing a high peak, step by step, accompanied with bitterness, hardships, frustration, encouragement and trust and with so many people's kind help. When I found myself at the top enjoying the beautiful scenery, I realized that it was, in fact, teamwork that got me there. Though it will not be enough to express my gratitude in words to all those who helped me, I would still like to give thanks to all of them from my curve of heart.

Any work is practically impossible without motivation, encouragement, support and proper guidance. Hence before presenting this research work it is my pleasure to acknowledge my gratitude to those who have willingly offered their active support in completion of the present work.

First of all I bow low in deep reverence and offer my humblest obeisance to the highest of the high and the noblest of the noble Almighty supreme merciful Lord for bestowing upon me benign blessing to take up this ambitious work and complete it successfully by overcoming with the obstacles.
