ACKNOWLEDGEMENT

It is my great pleasure to acknowledge the immense help, cooperation, and guidance that I have received from various persons and institutions during the course of my study.

First and foremost, my sincere gratitude and indebtedness goes to my supervisor Prof. Nissar A. Baruah who has been relentlessly guiding and inspiring me since I began the study. He has always been generous to me in giving his invaluable time in discussion, offering useful tips and ideas and checking the details of the study. This work would have been insurmountable without his constant encouragement.

During the course of the study, I visited several libraries for collecting materials. I take this opportunity to thank the staff of the libraries of Gauhati University, Suren Das College Library, Hajo, Barbhag College Library, Kalag and Damdama College Library, Kulhati. The secondary data were collected from the offices of different departments of Government of Assam such as Directorate of Economics and Statistics, State Institute of Rural Development, National Institute of Rural Development, Reserve Bank of India, Regional Office Guwahati, OKD institute of Social Change and Indian Statistical Institute. I offer my sincere thanks to the officers and staff of these departments for lending their helping hands in the process of secondary data collection.

I am also thankful to the persons, who helped me in different ways in different stages of my study. I would like to thank Mr. Mukut Choudhary, Mr. Debabrata Sutradhar, Nitul Ali, Sahid Ali, Jesmin Sultana, Ratna Bhuyan, Rashid Ahmed, Reema Rabha and Biswajit Kalita in this regard.

I am also thankful to faculty members of Gauhati University for their useful comments and encouragement.

I would like to express my heartiest gratitude to all my family members and especially my Parents. Finally, I thank God for His Help and Blessings that made it possible for me to complete this research study.

Ajijur Rahman
