LIST OF TABLES

CHAPTER 1

Table 1.1: Drugs derived from plants, with their ethnomedical correlations and sources.

CHAPTER 2

Table 2.1: Traditional knowledge practitioners (TKPs) identified in different islands of Nicobar district
Table 2.2: Ailments included in each medicinal use category
Table 2.3: Family-wise proportion of medicinal plants
Table 2.4: Endemic and rare plant species recorded from Nicobar group of Islands
Table 2.5: Plant species used by Traditional Knowledge Practitioners of various Islands in Nicobar district
Table 2.6: Informant Consensus Factors (ICFs) for various medicinal use categories

CHAPTER 3

Table 3.1: Uses and properties of ethnomedicinal plants collected for antimicrobial screening
Table 3.2: Phytochemical analysis of the methanol extracts of ethnomedicinal plants
Table 3.3: Antimicrobial activity of the ethnomedicinal plant extracts

CHAPTER 4

Table 4.1: NMR experiments commonly applied for natural product structural elucidation

CHAPTER 5

Table 5.1: Antibacterial activity of derived compounds from G. calocarpum
Table 5.2: MIC and MBC of derived compounds from G. calocarpum

CHAPTER 6

Table 6.1: Susceptibility of 10 serovars of Leptospira spp. to plant derived compounds and antibiotics by microdilution and macrodilution
