ACKNOWLEDGEMENT

First of all, I thank the Almighty god, for his blessings in guiding and shaping the destiny of people, in particular, bestowing me with full-fledged grace to add this diminutive contribution to the security related work.

At the outset, I express my heartfelt thanks to the Vice Chancellor and the Registrar, Bharathidasan University who have given me this precious opportunity and encouraged me throughout the tenure of this work.

I would also like to express my sincere sense of gratitude to the Director of Collegiate Education who took necessary steps to introduce the Ph.D., Program in our College, Dr.K.Kala, Joint-Director of Collegiate Education, Trichy region for her timely encouragement and Dr.R.Pari, Principal, Government Arts College (Autonomous), Karur for providing me with all the facilities and his valuable support for the submission of the thesis.

I owe every aspect of the success and technical grandeur of the project to Dr.K.Thangadurai, Research Advisor and the Head of the Department of Computer Science, Government Arts College (Autonomous), Karur – 639 005 who ably guided me all through the project. His intriguing questions, valuable suggestions, path-breaking solutions and timely interventions have led to diligent system design and meticulous deployment. Many of the refinements are the direct result of his invaluable and timely advice.

Thanks are due to all my friends, colleagues, and fellow researchers. I am drenched in the ardent support of my parents, husband, children, brothers and other beloved near and dear ones as I waded through the intricacies of this mind-boggling work. Finally, I am indebted to all those who have more specially and laboriously involved in the realization of this research work.

C.V.Anchugam
