ACKNOWLEDGMENTS

At last, my most difficult and most challenging academic endeavour to date is being fulfilled as I set pen to paper to gratefully acknowledge the unstinting support I have received from various individuals.

I would like to begin by thanking my guide and my mentor Dr M Prakash, who has been the main inspiration behind my effort. He went out of the way to ensure that my involvement with the thesis did not sag at any point of time owing to the heavy demand it made on me all the time. But for his constant encouragement, this thesis may not have seen the light of the day.

Dr Chenraj Roychand, President, Dr C G Krishnadas Nair, Chancellor, Dr N Sundararajan, Vice-Chancellor, Dr Sandeep Shastri, Pro-Vice-Chancellor and Dr Mythili P Rao, Research Co-ordinator, of Jain University, Bangalore, extended their fullest co-operation and support to me in this academic pursuit. I thank all of them from the bottom of my heart.

I would also like to thank Mr N.R Panditharadhya, President and Dr Wooday P Krishna, Hon. Gen Secretary of Seshadripuram Education Trust and Dr Anuradha Roy, Principal, Seshadripuram College, for their whole-hearted support to my endeavour.

I owe a deep debt of gratitude all my family members and my husband S Shashidhar, in particular, for bearing with me during this period. After all, I had to distance myself to single-mindedly focus on completing this thesis.
