TABLE CAPTIONS

TABLE 1. 1 NOMENCLATURE FOR X-RAY TRANSITIONS OF THE K, L AND M SERIES ...... 11
TABLE 1. 2 REGIONS OF ATOMIC NUMBERS WHERE STRONG COSTER-KRONIG TRANSITIONS ARE ENERGETICALLY POSSIBLE ................................................................. 19
TABLE 2. 1 COMPARISON OF PROTON INDUCED $L_{\alpha}$ GROUP X-RAY PRODUCTION CROSS-SECTIONS DETERMINED USING DIFFERENT DATABASES WITH THE AVAILABLE EXPERIMENTAL DATA ................................................................. 57
TABLE 2. 2 COMPARISON OF PROTON INDUCED $L_{\alpha}$ GROUP X-RAY PRODUCTION CROSS-SECTIONS DETERMINED USING DIFFERENT DATABASES WITH THE AVAILABLE EXPERIMENTAL DATA ................................................................. 58
TABLE 2. 3 COMPARISON OF PROTON INDUCED $L_{\beta}$ GROUP X-RAY PRODUCTION CROSS-SECTIONS DETERMINED USING DIFFERENT DATABASES WITH THE AVAILABLE EXPERIMENTAL DATA ................................................................. 59
TABLE 2. 4 COMPARISON OF PROTON INDUCED $L_{\gamma}$ GROUP X-RAY PRODUCTION CROSS-SECTIONS DETERMINED USING DIFFERENT DATABASES WITH THE AVAILABLE EXPERIMENTAL DATA ................................................................. 60
TABLE 2. 5 COMPARISON OF HE ION INDUCED $L_{\alpha}$ GROUP X-RAY PRODUCTION CROSS-SECTIONS DETERMINED USING DIFFERENT DATABASES WITH AVAILABLE EXPERIMENTAL DATA ................................................................. 61
TABLE 2. 6 COMPARISON OF HE ION INDUCED $L_{\alpha}$ GROUP X-RAY PRODUCTION CROSS-SECTIONS DETERMINED USING DIFFERENT DATABASES WITH AVAILABLE EXPERIMENTAL DATA ................................................................. 62
TABLE 2. 7 COMPARISON OF HE ION INDUCED $L_{\beta}$ GROUP X-RAY PRODUCTION CROSS-SECTIONS DETERMINED USING DIFFERENT DATABASES WITH AVAILABLE EXPERIMENTAL DATA ................................................................. 63
TABLE 2. 8 COMPARISON OF HE ION INDUCED $L_{\gamma}$ GROUP X-RAY PRODUCTION CROSS-SECTIONS DETERMINED USING DIFFERENT DATABASES WITH AVAILABLE EXPERIMENTAL DATA ................................................................. 64
