6. BIBLIOGRAPHY
Abell LL, Levy BB, Brodie BB, Kendal FE, (1952)  
Simplified method for the estimation of total cholesterol in serum and demonstration of its specificity  
J. Biol. Chem. 195 (357-366)

Alaupovic P, (1971)  
Conceptual development of the classification systems of plasma lipoprotein  
In H. Peeters Ed. Protides of Biological fluids  

Alaupovic P (1971)  
Apolipoproteins and lipoproteins  
Atherosclerosis-13, (141-146)

Alaupovic P, Kostner GM, Lee DM, Mc Conathy WJ and Magannani NH (1972a)  
Peptides composition of human plasma apolipoprotein A,B,C  

Alaupovic P, Lee DM, and Mc Conathy WJ (1972b)  
Composition and structure of plasma lipoprotein-distribution of lipoprotein in major density classes of normal human lipoprotein  
Biochim. Biophys. Acta-260 (689-707)

Anderson JT, Grande F, Keys A (1971)  
Effect on Man's serum lipids of two proteins with different amino-acid composition  

Anderson JW and Chem. Wen Julin (1979)  
Plant fiber: Carbohydrate and lipid metabolism  

Astrup P (1973)  
Carbon monoxide, smoking and cardiovascular disease  
Circulation 48 (1167-68)
Presented at the Fifth International Symposium on Atherosclerosis, Houston, Texas, November 6-9.

Avogaro P, Cazzolato G, Taroni G and Belussi F (1977)
Chemical composition of ultracentrifugation fraction in different patterns of human atherosclerosis
Atherosclerosis 26 (163-172)

Bagdade JD and Albers JJ (1977)
Plasma HDL concentration in chronic hemodialysis and renal transport patients
N. Engl. J. Med. 296 (1436-1439)

Relationship between triglyceride rich lipoprotein (chylomicrons and VLDL) and HDL2 and HDL3 in the post-prandial phase in humans
Atherosclerosis 37 (271-276)

Ball KP (1980)
Is diet an essential risk factor for CHD?
P. G. Med. J. 54 (585-592)

Effects of dietary roughage on cholesterol absorption, cholesterol turnover and steroid excretion in the rat
J. Nutr. 104 (1319-1328)

Ban, B (1972)
Serum cholesterol level in male industrial population of heavy engineering corporation
J. Ass. Phys. India 20 (495-499)

Bandyopadhyya A and Banerjee S (1964)
Dietary fats and plasma lipids in healthy adults of Rajasthan
Indian J. Med. Res. 52 (606-610)
Bang HD, Dyerberg J and Nielsen AB (1971)
Plasma lipid and lipoprotein pattern in Greenland west coast Eskimos
Lancet 1 (1143-1145)

Barboriak JJ, Anderson AJ and Hoffmann RG (1979)
Inter-relationship between coronary artery occlusion, LDL cholesterol and alcohol intake

Chronic alcohol abuse and HDL cholesterol
Alcoholism: Clinical and experimental Research Vol. 4, (346-349)

Barboriak JJ, Menahan LA and Milwaukee W (1979)
Alcohol, Lipoproteins and CHD
Heart and Lung: The Journal of Critical Care Vol 8, (736-740)

Coronary artery occlusion and alcohol intake
Br. Heart J. 39 (289-293)

Barr DP (1953)
Some chemical factors in the pathogenesis of atherosclerosis
Circulation 8 (641-654)

Barr DP, Russ EM, and Eder HA (1951)
Protein-lipid relationship in human plasma
Amer. J. Med. 11 (480-493)

Classification of hyperlipemias and hyperlipoproteinemias
Bull. of the World Health Org. 43 (891-915)
Alteration in lipid metabolism in healthy volunteers during long term ethanol intake

Beral V (1976)
Cardiovascular disease mortality, trends and oral contraceptive use in young women
Lancet 2 (1047-1051)

Berg KA (1963)
New serum type system in Man - the Lp system
Acta Path. Microbiol. Scand. 59 (369-382)

Berkow and Talbott (1977)
Merck Manual of Diagnosis and therapy

Bhall KK and Tandon OP (1962)
Clinical evidence of coronary artery disease among the different age groups in rural and urban population in Uttar Pradesh
In seminar on atherosclerosis and IHD-ICMR Golden Jubilee (24-30)

Blackburn H (1980)
Diet lipid atherosclerosis relationship. Epidemiological evidence and public health implications.
In Atherosclerosis V
