ACKNOWLEDGEMENT

The author conveys his special thanks and sincere gratitude to my guide Dr.R.Neelakantan, Assistant Professor (on lien)/Associate Professor, Department of Industries and Earth Sciences, Tamil University, Thanjavur, for his valuable guidance, supervision, encouragement and support and also for his whole hearted and unfailing effort to explain and teach the basics and finer nuances of Landslides, Remote sensing and GIS repeatedly. I am also indebted to him for his constant inspiration and meticulous analysis of the manuscript.

It is my good fortune that I could do my research work in the Department of Geology, Periyar University, Salem. I wish to record my sincere gratitude and hearty thanks to Prof. S. Anbhazhagan, Professor and Head, Department of Geology, Periyar University, Salem for his inspiration throughout my research work. And also thanks to other Faculties of Department of Geology, Periyar University, Salem for their support.

I thank Dr.R.Neelakantan, for given me an opportunity as University Research Fellow and also, thanks to University Authorities for providing financial support for my Doctoral Research.

Words are less than substitutes to express my thanks to Mr.S.Yuvaraj, Research Scholar, Department of Geology, Periyar University, Salem for his co-operation during field and laboratory works. And also thanks to Mr.G.Sathish, Geologist, GSI for his co-operation during field work.

The author express sincere thanks to the Organizations such as District Forest Office (especially to Mr.R.S.Manivasagam, Mrs.R.Shanthi, Mr.C.Jayagopi and other staffs) Salem division, Tamilnadu; Tamilnadu Water Supply and Drainage Board (TWAD), Salem, Tamilnadu; and Department of Geology and Mines, Salem, Tamilnadu for providing valuable collateral data.
Thanks are also due to Dr. M. Muthukumar, Assistant Professor, Department of Geospatial Technology, GRI, Dindugal for his valuable support during lab work. Thanks are also due to other Colleagues, Juniors, University administrative staffs, all technical and non-technical staffs of Department of Geology, Periyar University, Salem, Tamilnadu and friends for unfailing cooperation during lab work as well as all other miscellaneous job pertaining to Ph.D.

I bestow my heartfelt gratitude upon my family members for their endurance and motivation, without which this endeavor would not have been a success.

I record my thanks with utmost sincerity to The Almighty for His constant Grace and Blessings.

M. Karthikeyan
