### List of Tables

**Sample Description**
- Table IV.1
- Table IV.2

**Tables for Means & S.Ds**
- From V.1.1A to V.1.3A
- Profiles

**ANOVA Summary Tables**
- From V.1.3B to V.1.29B

**ANOVA Design**
- V.1.1B (2 x 2 x 3)
- V.1.26B (3 x 2 x 3)

**Tables for 'F' values**
- V.1.2B
- V.1.27B

**Comparative data of Self concept**
- Table V.1.30B

**Correlation Tables**
- Correlation among all the variables V.2.1
- Self concept with other variables V.2.2
- Sex with other variables V.2.3
- Teaching experience with other variable V.2.4
- Models for Strain V.2.5 to V.2.8
- Models for Stress V.2.9 to V.2.14

**Results of Moderated Regression Analyses**
- Table V.3.1 to V.3.5
- Equations 1, 2 & 3
Regression Coefficients (ETR)

Table V.3.6 .................................. 208
Table V.3.7 .................................. 217

Table showing hierarchy of Correlation Coefficients

VI.1.1 ........................................ 234

List of Figures

1. The Hypothetical Model ................... 74
2. Figures showing causal relationship of
   Self concept with Stress & Strain
   V.2.1 & V.2.2 ................................ 167a
3. Predictors of Strain V.2.3 ................. 180
4. Predictors of Stress V.2.4 ................. 181
5. Bar diagrams showing Main & interaction
   effects of stressors and products
   (stress x coping) on strain
   V.3.1 to V.3.4 ................................ 201-202
6. Regression lines (High, Average & Low
   effects of coping strategies)
   V.3.5 (From A to L) .......................... 210-215
   V.3.6 (From A to G) .......................... 218-221
7. Figure showing Linear relationship
   between Criterion & Predictors
   VI.1 to VI.4 ................................ 224-229
8. Main Effects of Independent Variables
   VI.5 to VI.6 ................................ 231-232
9. Relationship of Self concept with
   teaching experience & Sex .................. 235
