

## ACKNOWLEDGEMENTS

Mere words can never encompass one's profound inward emotions of ineffable indebtedness. The same perplexity haunts inside me in penning down my sagacious sense of gratitude and admiration towards my venerable supervisor **Dr. Deepak Gupta**, Professor & Head, Department of Mathematics, Maharishi Markandeshwar University, Mullana for his illuminating guidance, incredible perseverance and bountiful affection sprinkled on me right from the conception to the completion of work.

I am equally indebted to my co-supervisor, **Dr. Anupam Khanna**, Assistant Professor & Head, Department of Mathematics, D.A.V. College, Sadhaura, Yamunanagar, Haryana. I deeply acknowledge his support, inspiration, blessings, care, co-operation and invaluable suggestions which could give this thesis into its final form.

I wish to express my heartiest thanks to **Mr. Tarsem Garg Ji**, Hon'ble Chancellor, Maharishi Markandeshwar University, Mullana for providing me the opportunity and necessary facilities to accomplish this endeavor successfully.

I am also grateful to the faculty members **Dr. Satish Kumar, Dr. Vishal Gupta, Dr. Nidhi Sharma, Dr. Sachin Kaushal** and all faculty members for their constant encouragement.

Co-operation and patience kept by my parents (*Sh. Rajendra Singhal & Smt. Prabha Singhal*), my wife (*Neha*) and my little angel (*Ishanvi*) during this tenure is inexpressible in words. Without their support, it was an impossible task for me.

Needless to say, errors and omissions are mine.

  
**Ashish Singhal**
