ACKNOWLEDGEMENTS

I would like to thank my supervisor Dr. P. C. Rath for his guidance and support throughout my doctoral thesis. I acknowledge the help of Dr. Y. K. Jaiswal, Biochemistry Department, Jiwaji University, Gwalior for providing the human testis cDNA library; Dr. Sanjaya Singh, M.D. Anderson Cancer Center, Houston, TX, U.S.A. for helping in automated DNA sequencing and providing the MTN and Genearray blots and Dr. Lalji Singh, Director, C.C.M.B., Hyderabad for his kind help to use their DNA sequencing facility. I thank Prof. Ashok Mahapatra, Neurosurgery Department, A.I.I.M.S., New Delhi for providing the tumor tissue samples.

I would like to thank Prof. N.Z. Baquer, Prof. Rajendra Prasad, Prof. K. C. Upadhyaya, Prof. R. K. Saxena, the past and the present Deans of the School of Life Sciences for providing the facility of the School to be used for the work. I gratefully acknowledge Prof. Madhubala, Dr. Shyamal Goswami and Prof. S. K. Kar for allowing me to use their tissue culture facility. Prof. P. K. Yadava, Prof. R. N. K. Bamezai and Dr. Deepak Sharma for their help and constant encouragement.

I would like to thank Mr. Ravi, I.C.G.E.B. and my senior Dr. Meenakshi, School of Environmental Sciences, J.N.U. for their help with tissue culture; Mr. Saini, for the photographs and discussions; Mr. Solanki for help with the colour photographs. Help received from the C.I.F. staff, Mr. Alexander, Mr. Khan, Mr. Sharma, Mr. Mishra, Balwant, Rajinder and Aslam is highly appreciated. I would also like to thank Mr. Panwar for his help and our lab assistants Mr. Chotte lal and Mr. Bhagatram for keeping the lab running.

I would also like to acknowledge the Department of Science and Technology (D.S.T.), the Council of Scientific and Industrial Research (C.S.I.R.) and the University Grants Commission (U.G.C.), Govt. of India for providing financial support in the form of projects to our laboratory. The Junior and Senior Research Fellowships to me by the U.G.C. are gratefully acknowledged.
The best part about belonging to the School of Life sciences is the interaction with students from every field, and I am proud to belong to the SLS student fraternity. I have to thank my labmates, Indranil, Sanjiv, Mitali, Meenakshi, Raju and Krishna for their constant help, and encouragement and providing a healthy atmosphere in the lab. My sincere thanks are due to my seniors and friends Jaspreet, Sanjiv, Neeraj, Raju, Suchi, Arvind, Andrew, Ranjan, Rini, Mukesh and Vaishali for guiding me through my initial years at SLS. It was a pleasure interacting with my juniors, Bindu, Poonam, Ravinder, Suresh, Vikas, Abhijeet, Manveen, Neelkanth, Vibha, Sindhu and Arnab. I could always depend upon my friends Anjali, Suneet and Faisal to come to my aid. I need to thank my batchmates Satish, Shamik, Monideepa, Manisha and Soma for all their help over these years.

This work would not have been completed had it not been for the moral support provided by my closest friends. Dhananjay, thank you for being my emotional anchor, each step of the way. Paramita and Prabh, thank you for being there, for being mine. Binuja needs to be thanked for being there when I needed her most.

Finally, I am grateful to my family who have been a source of encouragement throughout the tenure of my Ph.D. My gratitude for my parents is eternal, for believing in me.
