ACKNOWLEDGEMENT

My respectful thanks to the Vice-Chancellor, Registrar, Research Co-Ordinator, and all the Staff of Research Section of Manonmaniam Sundaranar University for their enormous and kind support.

I am highly grateful to my research supervisor Dr.K.Sankaranarayanasamy, Professor and Head, Department of Mechanical Engineering, National Institute of Technology, Tiruchirappalli, India, for his astute guidance, constant motivating and warm encouragements throughout the entire course of my Ph.D work.

I express my deep sense of gratitude to Dr.T.Sundararajan, Professor, Department of Mechanical Engineering, Indian Institute of Technology Madras, Chennai, India for his kind teachings, excellent suggestions and eternal support.

I owe a lot to the Management, Dr.S.Balakrishnan-Principal, Dr.P.Nagaraj-HoD of Mechanical Engineering, Mr.M.Natchiappan and other technicians of Mepco Schlenk Engineering College, Sivakasi, India for their timely helps. My high esteem to (Late) Mr.S.Govindarajan and his colleagues at IGCAR Kalpakkam, India for having provided me an opportunity to use some of their experimental facilities.

During my Ph.D work period, I could hardly spend time with my family. I am highly obliged to the forbearance of my children A.Bharath, A.Bhavani and A.Akchaya which enabled me sustain focus on the research work over a prolonged period.

Our world is prevailing upon the noble services of many people belonging to different times and hailing from various places. I sincerely admire them and adore the all pervasive Nature for the inspirations. I thank one and all who have directly or indirectly helped me in this research work.

S.P.ASOK
