ACKNOWLEDGEMENTS

First and foremost, praises and thanks to the God, the Almighty, for his showers of blessings throughout my research work to complete the research successfully.

I offer my sincere gratitude to my esteemed research supervisor Dr. Zaki A. Siddiqui, Associate Professor, Department of Botany, Aligarh Muslim University, Aligarh, India, for his invaluable support, encouragement, supervision and useful suggestions throughout this research work. His moral support and continuous guidance enabled me to complete my work successfully.

I am highly obliged to Prof. Firoz Mohammad Chairman, Department of Botany, AMU, Aligarh and Prof. Anis Mohammad former Chairman, Department of Botany, AMU, Aligarh for providing me necessary facilities for research work.

I am grateful to my husband Capt. Anand Vardhan for boosting me up to achieve this goal and for his forbearance, affection and constant endorsement which gave me the required zeal for completion of this work.

I would like to express my deepest gratitude to my parents, my mother Mrs. Anar Devi and my father Late Kedar Singh, for nurturing me and inspiring to pursue doctoral education. God knows it would not have been completed smoothly and rapidly if I was not supported by my mother in law Mrs. Santosh Rajput and my father in law Mr. G.S. Rajput. They constantly provided me their moral support.

I am thankful to my friends Namrta, Shaista, Sana, Saba, Rumana, Kavita, Saima, Nigar, Shiwali, Aastha, Mohd. Yusuf and Mohd. Irfan for their cooperation throughout the work. I shall be failing in my duty if I don’t gratefully acknowledge my juniors Rukshima Nesha and Subha Alam for their help and useful suggestions.

Special thanks to my sisters, brother and relatives for their affection and best wishes at every step of this journey.

Financial assistance provided from the University Grants Commission, New Delhi, India through BSR to carry out this work is gratefully acknowledged.

Neelu Singh
