Preface

When political violence, war for power, struggle for a Nation’s existence, militant attacks captured our attention, I engaged myself in a race for development in science. It is simply a valuable outcome of my endeavor for these years which I spent for my research work to my best.

Firstly I would like to pay my sincere regards to Prof. MK Pal, the person who has first introduced me my guide Dr. (Mrs.) Swati De. From then I did not look back in my research career for which I wish to pay my warm and sincere respect solely to my precious supervisor, Dr. De. She has not only inspired me for all these years by paying special attention but also co-operated me in all possible ways in my distress as well as shared all joy of success in my work. I pay my greatest respect to her for spending her valuable time and suggestions for me and making my ambition fruitful.

I owe special gratitude to Prof. K Bhattacharyya of IACS, Kolkata, for his valuable suggestions, ideas and kind support.

I can’t forget the opportunity to acknowledge the personalities and institutes those have provided me necessary infrastructure without which my research work couldn’t have completed. I am very thankful to Dr. Anjan Dasgupta, Department of Biochemistry, University of Calcutta. Name of those institutes: Indian Association for the Cultivation of Science (IACS), Kolkata; Saha Institute of Nuclear Physics (SIMP), Kolkata; Jadavpur University, Kolkata; Bose Institute, Kolkata are also acknowledged.
I would like to thank my research scholar colleagues for their considerable assistance and constant inspiration. My special thanks to Ms Suchismita Mandal, Ms Susmita Das, Mr Mrinmoy De of Department of Chemistry, Mr Sujan Choudhuri, Mr Bimal Jana, Ms Swati Saha of Department of Biochemistry and Biophysics, Mr Sobhan Sen, Mr Partha Dutta, Mr Saptarshi Mukherjee of IACS and also to Mr Amit Chakrabarty of Department of Microbiology for his curious queries about my work.

I am much grateful to all the teaching, non-teaching staff, research scholars and friends of Department of Chemistry and Department of Biochemistry and Biophysics, University of Kalyani for providing me the facilities and other necessities for research.

I always pay my due respect to my father-in-law and mother-in-law for their kind help and encouragement.

I cannot forget the support and backup given by my parents and twin sisters in the ups and downs of my research work. I have no words to explain the cooperation of my wife, Koyeli, who has inspired and supported me in all possible ways.

Lastly my sweet thanks to my cute daughter, Avantika, for her immense patience and inquisitiveness about my computer work.
