# CONTENTS

- **CHAPTER - 0**
  - INTRODUCTION .................................................. 1

- **CHAPTER - I**
  - Some set-theoretic Properties of Linear Operators ........... 24

- **CHAPTER - II**
  - Generalised Nonlinear Ergodic Theory ........................ 37

- **CHAPTER - III**
  - Generalisation of a fixed point theorem ...................... 47

- **CHAPTER - IV**
  - A fixed point theorem ........................................... 53

- **CHAPTER - V**
  - Approximation of fixed points of nonlinear mappings ........ 60
CHAPTER - VI

Fixed point theorem for generalised well locally contractive mappings 78

CHAPTER - VII

A generalisation of a fixed point theorem 92

CHAPTER - VIII

Fixed point theorem for set-valued mappings in reflexive Banach spaces 99

CHAPTER - IX

Fixed and periodic points under set-valued mappings 106

BIBLIOGRAPHY 133
