Acknowledgements

A project spanning more than four years requires valuable contributions from all around towards its successful completion. I take this opportunity to express my token of thanks to all these people:

First and foremost, I would like to express my deep sense of gratitude to my adviser Dr. Anand K. Bachhawat for guiding me throughout this journey. I will always appreciate his patience, thought provoking discussions, perseverance and constructive criticism. The immense freedom given by him helped me to think rationally and tackle problems independently.

My sincere thanks go Dr. Amit Ghosh, Director IMTECH, for providing excellent working facilities for research.

The invaluable suggestions and guidance by Dr. Ganesan helped me a lot to design and execute experiments successfully.

I am grateful to Dr. Pushpa Agrawal for her support and help during my tenure.

I would like to express my thanks to Dr. Susan Michaelis and Dr. Phil Rea for doing transport and localization experiments. I am thankful to Dr. Scott Moyer-Rowley for providing strains and plasmids. Special thanks are due to Dr. Vandana Sharma for her help in carrying out some initial experiments.

Profound thanks go to Rajkumarji for providing excellent technical assistance and his role in smooth running of the laboratory.

Special thanks are due to our BIC members, library and instrumentation staff, and administration and accounts people for their help and cooperation during my stay here. I am also thankful to Mr. Amit Bhandari for his help, friendship and sharing a very good time with me.

I owe a lot to my senior Subba who taught me the different techniques of molecular biology to perfection. I will always cherish his togetherness because of his forever-helping attitude, care and simplicity. I am thankful to all my seniors and juniors at IMTECH for making my stay comfortable and joyful. I am especially thankful to Susham, Kislay, Vishal Soni, Susmit, Ashwani Thakur, Rohini, and Indrani for pampering me and taking care of me. I am also thankful to all my labmates Rupinder, Abhijeet, Vishwamitra, Puja, Rajeshwari madam, Devinder, Ganguli, Sanjoy for their help. A very special thanks is due to respected Vandita
madam for all her affection, love, and laughter showered on me. I am also grateful to Vibha and Rekha for their valuable suggestions, criticism and help at odd times.
I shall always be thankful to Srikant for his unconditional help and support in difficult times. My sincere thanks are due to cheeku who has helped me out of the way to complete this thesis, his strong criticism is also acknowledged. I am thankful to Jagg, Arvind, Anshuman, Joseph, Laddi, Sumit, Sangeeta, Rahul, Amit sharma, Sharan, Narinder, Nandini, Deepika, Sujata, Aruna, Saurabh, Laxmi and all others for their nice company.
I would like to acknowledge the financial support by CSIR.
I am thankful to my parents and my brothers and sisters for their love, affection and blessings, which has been the driving force for me all the way during my studies.
