Acknowledgement

The author has the great pleasure to acknowledge her indebtedness with deep sense of regardful gratitude, the sincere, needful and able guidance, the significant and invaluable advice in favour of her teacher Professor Sujit Chandra Lahiri, Professor of Chemistry, University of Kalyani who enlightened the author on different problems of investigation and ultimately led to complete her work under his direct supervision.

Her sincere regards are also due to Dr. D.C. Hukherjee, Reader of Chemistry, University of Calcutta for his help and constant encouragement and for providing his laboratory to carry out the research work who also introduced the author to Professor N.K. Sinha of Bose Institute for providing instrumental facilities for few days to whom the author is also thankful.

Her acknowledgement and thanks must go to Professor B.C. Sen and Dr. U.N. Biswas of Presidency College for allowing her to use the hot and cold thermostat and also to Professor R. K. Sen Gupta, Dr. R. S. Banerjee, Dr. T. Chakravarty in this occasion.

The author desires to express her special thanks to Dr. A. Chakravarty for providing his instruments for the progress of the work.

She extends her thanks to Sri J. Tewary and to the technicians specially Sri P. Ghosh, Sri J. Ghosh, Sri A. Pattanayak and Dr. A. Ghosh.

The author must also remain thankful to her fellow research scholars of the department of Chemistry, the University of Kalyani and Calcutta University, for their friendly co-operation.
The author is also thankful to the Head of the Department of Chemistry, University authorities, other teachers, library and staff members of the Department of Chemistry for their direct and indirect help in the course of the work. She expresses her thanks to Mr. B Basak and Mr. S Bhattacharyya for typing the thesis.

The author is also greatly indebted to her mother Smt. P Sengupta who brought her up with meticulous care and affection. The author recollects her regardful sense of gratitude to Mrs. S Lahiri and Mrs. C S Majumder also.

Sincere thanks must be attributed from the part of the author to a number of her well-wishers specially Mr. D Sengupta and Mr. S Ghosh, for their direct and indirect help in writing this dissertation.

Mere thanks would not be enough to justify the dignity of her two beloved children, her daughter Kumari E Majumder and her son Master A Majumder for making everything worthwhile and also for their sacrifice in sparing their childhood friend - 'mother' to enable her for going through the thesis.

In this connection, the author is also very proud to manifest her heart-felt gratitude and sincere thanks to her husband Mr. K K Majumder for inspiring her whole-heartedly in all possible ways and also for collaborating with some of her works, active assistance in some part of the investigation and ultimately for completion of her thesis.

Finally, the author expresses her gratefulness to the U.G.C., New Delhi, for the award of Teacher-Fellowship under F.I.P. Scheme and also to the College authorities for sanctioning the leave during the period of her investigation.
