ACKNOWLEDGEMENT

This work would not have been possible without the unwavering support and encouragement of people who instilled their faith in me and motivated me at every step. First and foremost I would like to thank my guide, Dr. Vidya Naik whose knowledge and scholarship were instrumental in guiding me throughout the entire process. My sincere gratitude goes to my guide under whose supervision I chose the topic and began the thesis. At times when I floundered, and seemed to be lost in the labyrinth of copious material, it was she who led me to clarity.

My thanks to my principal, vice principal and colleagues, from Jamnabai Narsee School for providing me with sound counsel in times of uncertainty. I would like to put on record my heartfelt gratitude to all the staff of JJTU who provided support to me from time to time.

Special thanks are also due to my friend Amita Jain for her handholding, advice and genuine interest. My work was greatly facilitated by the enthusiastic efforts of my student Aanchal Narang, who took a personal interest in the subject and helped me through data compilation stage. A lot of my former students, Aanchal, Kaneeka, Damian, Vrushti, Hita, and many others helped me gain access to executives and smoothen the process of data collection. I remember them with gratitude and affection.

I cannot end without thanking my family- my mother Hema Parekh and my father Jagat Parekh, whose unstinting support and love, I have relied on throughout. I am forever indebted to them for their understanding, patience and encouragement when it was most required.
