ACKNOWLEDGEMENT

After an intensive period of two years, today is the day to give a finishing touch on my thesis by acknowledging all those who kept my Dreams Alive, made me understand that to Achieve anything requires: Faith, Believe in yourself, Vision, Hard work, Determination, and Dedication. And kept on reminding me that all the things in life are possible for those who Believe. It has been a period of intense learning for me, not only in the scientific arena, but also on a personal level. Writing this thesis has had a big impact on me. Hereby, I would like to reflect on the people who have supported and helped me so much throughout this period.

First of all, I am extremely grateful to my Ph.D. guide, Dr. G. C. Bhimani, Head and Professor of Statistics, Department of Statistics, Saurashtra University, for his valuable guidance, scholarly inputs and consistent encouragement I received throughout the research work. This feat was possible only because of the unconditional support provided by Sir. A person with an amicable and positive disposition, Sir has always made himself available to clarify my doubts despite his busy schedules and I consider it as a great opportunity to do my doctoral programme under his guidance and to learn from his research expertise. Thank you Sir, for all your help and support.

With all sincerity and deep sense of gratitude I express my humble thanks to Shri Sanjay Lalbhai, Chancellor; Shri Prafull Anubhai, Former Chairman; Dr. Pankaj Chandra, Chairman; Dr. Bhavesh Patel, Former Dean; Dr. Devanath Tirupati, Dean; Shri B. M. Shah, Registrar; of Ahmedabad University, and to the management of Ahmedabad University for providing healthy support during my research work.

I would be failing in my duties, if I do not thank Shri M T Patel, Former Director and Shri P M Patel, Associate Dean, Undergraduate Programmes, Amrut Mody School of Management, Ahmedabad University for being there and making my journey smooth by giving me needed help and guidance.

My cordial thanks to all faculty and staff members of H. L. Institute of Commerce, Ahmedabad University and Department of Statistics, Saurashtra University, for their assistance and kind co-operation. My special thanks to Prof. Dinesh Barot and Prof. Bhaktida Trivedi to always render best in whatever service they could.

I owe a lot to my father Khushal Gadhvi and mother Ranjana Gadhvi, for their unflagging love and unconditional support throughout my life and my studies. They have made me live the most unique, magic and carefree childhood and longed to see this achievement come true.

I am grateful to God for blessing me with an elder brother Dr. Vikas Gadhvi, Oncologist, without him I would have never been able to start the beautiful journey to Ahmedabad from Bhuj, no matter where you are around the world, you are always with me, thank you for every little thing you did for me since childhood!!
My deepest gratitude goes to my family: Father-in-law Dr. M. N. Patel, who inculcated an strong foundation of statistics within me and made learning statistics beautiful from day one, thank you for lifting me up all the time; Mother-in-law Kamala Patel, who kept me free from all the household responsibilities and making my work easy. And most of all for very special person who is loving, supportive, encouraging, and patient husband Ronak Patel whose faithful support during the thesis is so appreciable. Thank you for managing things on behalf of me every time and for being a real partner.

Last but not the least I would like to thank all my friends, well-wisher’s and those who have helped me, either directly or indirectly and whose names I have unknowingly missed out, in making this project a worthy endeavour.

Neha K. Gadhvi
