ACKNOWLEDGEMENT

I express my deep sense of gratitude and sincere indebtedness to Dr. B. B. Jana, Reader, Department of Zoology, University of Kalyani, for suggesting the present problem and his valuable guidance throughout the course of this investigation as well as in preparation of this thesis.

I am particularly grateful to the University of Kalyani for awarding me a research fellowship during the tenure of this investigation.

Grateful acknowledgements are also due to Prof. G. K. Manna, Prof. A. K. Bose, Prof. A. Saha, Prof. S. P. Bhattacharya, Prof. A. K. Bhattacharya and Dr. S. K. Konar, Department of Zoology, University of Kalyani, for extending necessary facilities to carry out this work.

I acknowledge a debt of gratitude to Prof. S. P. Sen, Department of Botany, University of Kalyani, and Prof. A. K. Mishra, Head, Department of Microbiology, Bose Institute, Calcutta for their kind help as and when required.

I would also like to mention a word of praise to my
fellow laboratory colleagues Dr. G. Pal, Dr. G. N. Patel,
Dr. S. K. Roy, Dr. U. K. De, Mr. G. Sarkar, Mrs. S. Sengupta,
Mrs. M. Basu, Mr. A. K. Manna, Mr. G. Kundu, Mr. A. R. Ghosh
and Miss. R. Chakrabarti for their timely assistance. I am
no less grateful to my friends Dr. A. K. Basu, Mr. T.
Mukherjee, Miss. A. Biswas, Mr. S. Goswami, Mr. S. Saha,
Miss. S. Sinha and Miss N. Sinha for their various help.

Sincere thanks are also due to Members of the Teaching
and Non-teaching Staff and Research Scholars of this
Department.

Finally, I would like to express my thanks to Mr. N.
Datta Roy for his laborious effort in typing this thesis.
