ACKNOWLEDGEMENT

The author would like to express his gratitude and thankfulness to his research guide Dr. (Mrs.) Padma Chatterjee, Department of Botany, University of Kalyani, for different suggestions and rendering guidance in his work.

He is indebted to University Grant Commission (UGC), New Delhi and to the University of Kalyani, Kalyani for providing research fellowship.

The author is sincerely grateful and expresses his deep sense of gratitude to Prof. A. K. Barua and Prof. A. Ghosh of Bose Institute of Calcutta for valuable suggestions, constant guidance, laboratory facilities and encouragement throughout the course of his work. He is also thankful to Dr. D. Ghoshal and Mr. K. Bose of Bose Institute, for different suggestions and directions.

His sincere thanks to Dr. Sukta Das, Chittaranjan National Cancer Research Centre (CNCRC) for supplying cancer cell lines and Mrs. Ranjana Bose, CNCRC for rendering helping hands in consulting different books and journals.

The author likes to thank Prof. G. K. Manna and his research scholar, Dr. K. Mohanti, Department of Zoology, K. U., for giving the chance to use the fluorescent microscope in their laboratory.

He sincerely acknowledges the guidance of Dr. Sina Battacharya, Reader, Kalyani University, in Cytological point of view and of Dr. G. G. Maity, Reader, Kalyani University in collection of plant specimens.
The author also like to thank Prof. S. P. Sen, Dept. of Botany, K. U., for his help from time to time and for giving him chance to use his laboratory.

He is indebted to Dr. Tripti Roy, Dr. D. Mukherjee, Mr. S. Sukul, Sumita Kundu and Miss Arunima Bardhan of this department for their constant co-operation during the tenure of his research work.

The author also thank Dr. N. Ghosh Hazra and Mrs. Swapna Gupta for their valuable suggestions and his wife Mrs. Ishani Ghosh Hajra for her sacrifices, constant inspiration and different types of help throughout the work.

Lastly, he expresses his gratitude to his parents for their encouragement and blessings which led to complete the work.

(ASHIS GHOSH HAJRA)
