Summary	....I - XXI

## CHAPTER-I

1.1 Introduction	
A. Metal complexes of 3-formylsalicylic acid	.....1 - 2
B. Metal complexes of ligands derived from 3-formylsalicylic acid	.....2 - 3
B.1 Mono- and bi-nuclear complexes of the Schiff base ligands derived by the condensation of 3-formylsalicylic acid with monoamines, aminoalcohols, aminoacids, etc.	.....3 - 19
B.2 Binuclear complexes of 3-formylsalicylic acid oxime	.....19 - 20
B.3 Mononuclear complexes of the Schiff base ligands derived by the condensation of 3-formylsalicylic acid with diamines	.....21 - 30
B.4 Organoderivatives of the Schiff base ligands derived from 3- formylsalicylic acid and diamines	.....30 - 31
B.5 Electrochemical behaviour of the complexes of Schiff base derived from 3-formylsalicylic acid and diamine	.....31 - 31
B.6 Binuclear complexes of the Schiff base ligands derived from 3-formylsalicylic acid and diamines	.....32 - 39
B.7 Mono- and binuclear complexes of the Schiff base ligands derived by the condensation of 3-formylsalicylic acid with polyamines	.....39 - 44
B.8 Metal complexes of related Schiff base ligands	.....45 - 48
1.2 Aims and objective of the present investigation	.....49 - 59
1.3 References	.....60 - 78

## CHAPTER-II

2. Experimental	.....79 - 81
2.1 General Description	.....81 - 83
2.2 Preparation of the Starting Compounds / Salts	.....83 - 85
2.3 Preparation of the Ligands	.....86 - 87
2.4 References	

## CHAPTER-III

3. Synthesis and spectroscopic characterization of some transition metal complexes of a new hexadentate $N_2S_2O_2$ Schiff base ligand.	
3.1 Introduction	.....88 - 89
3.2 Experimental	.....89 - 91
3.3 Results and Discussion	.....91 - 110
3.4 Abstract	.....111 - 111
3.5 References	.....112 - 114

## CHAPTER-IV

4.1 Synthesis and characterization of a new hexadentate $N_4O_2$ donor Schiff base ligand, 1,8-N-bis(3-carboxy) disalicylidene-3,6-diazaoctane-1,8-diamines (abbreviated to $H_4fsatrien$ ) and its mononuclear complexes with bi- and trivalent transition and non-transition metal ions.	
4.1.1 Introduction	.....115 - 116
4.1.2 Experimental	.....117 - 120
4.1.3 Results and Discussion	.....121 - 159
4.1.4 Abstract	.....159 - 160
4.1.5 References	.....161 - 163

4.2 Synthesis and characterization of homo- and heterodinuclear complexes with bi- and trivalent transition and non-transition metal ions with a new octadentate  $N_4O_4$  donor Schiff base ligand, 1,8-N-bis(3-carboxy)disalicylidene-3,6-diazaoctane-1,8-diamine (abbreviated to H<sub>4</sub>fsatrien).

4.2.1 Introduction	.....164 - 164
4.2.2 Experimental	.....164 - 166
4.2.3 Results and Discussion	.....166 - 180
4.2.4 Abstract	.....180 - 180
4.2.5 References	.....181 - 182

## CHAPTER-V

5. Reactions of 3-carboxy-2-hydroxybenzaldehyde morpholine N-thiohydrazone (H<sub>2</sub>chbmth) with  $R_2MCl_2$  (where, R =  $\pi$ -C<sub>5</sub>H<sub>5</sub>, and M = Ti/Zr; R = Me/Ph, M = Sn; R = OMe and M = Ti),  $(\pi$ -C<sub>5</sub>H<sub>5</sub>)Ti(OMe)Cl<sub>2</sub> and  $RMCl_3$  (R = Me/Ph and M = Sn; R =  $\pi$ -C<sub>5</sub>H<sub>5</sub> and M = Ti) leading to the synthesis of new organo- derivatives of titanium(IV), zirconium(IV) and tin(IV).

5.1 Introduction	.....183 - 184
5.2 Experimental	.....184 - 186
5.3 Results and Discussion	.....186 - 194
5.4 Abstract	.....194 - 194
5.5 References	.....195 - 196

## CHAPTER-VI

6.1 Synthesis and characterization of some vanadium(III) complexes with tetradentate Schiff bases.

6.1.1 Introduction	.....197 - 198
6.1.2 Experimental	.... 198 - 199
6.1.3 Results and Discussion	.. ..200 - 204
6.1.4 Abstract	.. . 205 - 205
6.1.5 References	.. .206 - 206

6.2 Synthesis and characterization of oxovanadium(IV), vanadium(IV) and oxovanadium(V) complexes of tetradentate Schiff bases. Attempted preparation of vanadium-carbon bonded compounds through desilylation (carbon-silicon bond cleavage).

6.2.1 Introduction	.....207 - 208
6.2.2 Experimental	.....209 - 212
6.2.3 Results and Discussion	.....212 - 224
6.2.4 Abstract	.....225 - 225
6.2.5 References	.....226 - 227

6.3 X-Ray diffraction studies, thermal, electrical and optical properties of oxovanadium(IV) complexes with quadridentate Schiff bases.

6.3.1 Introduction	.....228 - 229
6.3.2 Experimental	.....229 - 229
6.3.3 Results and Discussion	.....229 - 241
6.3.4 Abstract	.....241 - 241
6.3.5 References	.....242 - 243

Concluding Remarks	.....244 - 245
--------------------	----------------

Appendix – List of Publications
