

### ACKNOWLEDGEMENTS

I wish to express my sincere and profound gratitude to Dr.S.C.Dhar, M.Sc.,Ph.D.,F.I.C., Assistant Director, Biochemistry Laboratory, Central Leather Research Institute, Madras for suggesting the problem and for his active and inspiring guidance throughout its execution and to Dr.S.M.Bose, M.Sc.,Ph.D.,A.R.I.C., Head of the Biochemistry Laboratory for his encouragement in carrying out this work.

The author's grateful thanks are due to Prof,M.Santappa, Ph.D.(London), Ph.D.(Manch.)F.A.Sc., F.N.A.,F.R.I.C., Vice-chancellor, University of Madras and Ex-Director (CLRI) and Dr.N.Ramanathan, M.Sc.(Distn.) (Bon.), Ph.D.(Bon.),Ph.D.(Leeds), F.T.A.Sc., F.N.A., Acting Director, Central Leather Research Institute for their continuous support in the various stages of this work, to the Council of Scientific and Industrial Research, New Delhi for providing necessary facilities and to Andhra Pradesh Agricultural University, Hyderabad for the financial support to carry out this work.

....

The author's grateful thanks are also due to Prof.D.Anjaneya Prasad, M.V.Sc., Ph.D.(Kansas), Head, Dept. of Animal Science and Principal, College of Veterinary Science, Tirupati for his valuable suggestions and constant encouragement.

Finally I thank my wife for the co-operation and encouragement during the course of this investigation.

## CONTENTS

	<u>Page</u>
General Introduction ..	1 - 45
Purpose and Scope ..	46 - 47
Materials and Methods ..	48 - 69
 <u>CHAPTER I</u>	
Purification of alkaline proteinase from <u>Bacillus subtilis</u> by hydrophobic affinity chromatography ..	70 - 84
 <u>CHAPTER II</u>	
Studies on <u>B. subtilis</u> alkaline proteinase -Enzymatic properties ..	85 - 96
 <u>CHAPTER III</u>	
Studies on <u>B. subtilis</u> alkaline proteinase - Chemical properties ..	97 - 111
 <u>CHAPTER IV</u>	
Studies on the immobilization of alkaline proteinase on Bentonite ..	112 - 129
 <u>CHAPTER V</u>	
Properties of alkaline proteinase immobilized on Bentonite ..	130 - 142
 <u>CHAPTER VI</u>	
Studies on the use of immobilized alkaline proteinase to improve the nutritive value of chicken feather meal ..	143 - 162
General Conclusion ..	163 - 165
