Acknowledgements

“The journey of a thousand miles begins with one step”, Ph.D. is a tough journey and to get through this hardest journey we need to take only step at a time, but we must keep stepping. This is the thought that has helped me achieve the best things in life.

Firstly, I would like to express my sincere gratitude to god for fulfilling my dream. This was only possible when I landed up in National Agri-food Biotechnology institute, Mohali (NABI) institute and its only accomplish with support and knowledge of many people. I would like to express my sincere thanks to my supervisor Dr. Nitin Kumar Singhal for clarifying my doubts and his long-term advices throughout my studies. His continuous support, motivation, and encouragement have helped me to understand the core of science. I am grateful to get the opportunity of working with such a grounded person, from whom I have learnt how to solve problems no matter what the situation is. His positive counseling has been invaluable on both academic as well as personal level, for which I am truly indebted. Special thank goes to Dr. Hari Om Yadav for his advices in scientific challenges and knowledge. I am very grateful for knowledge sharing, calmness and constructive advices, above all encouragement and making me believe in my potential. These two scientists are best combination for getting trained not only in philosophy of science but philosophy of life as well.

Sincere thanks to, Dr. Vikas Rishi, Dr. Joy K Roy, Dr. Ajay K Pandey, Dr. Monika Garg, Dr. Shailendra Sharma, Dr. Mahendra Bishnoi, Dr. Kanti Kiran, Dr. Kaushik Majumdar, Dr. Siddharth Tiwari, and Mr. Shrikant Mantri for their presence and encouragement throughout my studies. I would like to extend my thanks to Prof. Jerry Kaplan, University of Utah Salt Lake City, UT for providing GFP-FPN cell line.

I would like to thank Executive Director Dr T. R Sharma National Agri-food Biotechnology institute, Mohali for continuous support in my work and Department of Biotechnology, Govt. of India for fellowships and infrastructure that supported my research and I want to thank, Dr. Rajat Sandhir for his help and support in animal related experiments. Multiple thanks to the lab technical staff of NABI i.e. Dr. Kamlendra Yadav, Mr. Atul, Ms. Akriti Gupta and Mr. Sham Kumar for multiple helps inside lab.
My thanks extend to lab mates Vishal, Swetah, Shimayali, Shilpa, Poonam, Nitesh, Ritika, Swati and Sunaina for their continuous help and support to complete my studies. Vishal and Vishnu your motivational support and faith in me helped me grow in difficult situations. Shimayali, Nitesh and Shilpa your help in performing experiments are highly appreciable. I owe many thanks to my friends since I joined NABI i.e. Vishnu, Shashank for all the interesting discussions over the lunch and tea time.

My thanks extended to my colleague’s cum friends Ashish, Sipla, Dr.Ritesh, Mandeep, Shivani, Raminder, Nishtha, Usman, Amit, Veneketesh, Aman, and Pankaj for their perceptive support and positive company. I want to phrenetically thank my lifelong friends Rigzin Dorje, Tashi, Deachen Chosdol and Angele Limi for their unvarying support, love, and was always being there for me irrespective of their tight schedule.

I would like to devote this thesis to my family starting from my Grandfather and mother (Late) Nawang Sangay and Lobzang Chorol. Most significantly, I would like to thank my family, parents for everything and for their endless love, unconditional support, understanding, and encouragement. The thanks count also for other members of family Uncle and Aunties, my sisters and brother Jigmet Deskyong, Sonam Yangdol, Sonam Angmo, Nilza Angmo for their love and support.

My thanks go in particular to my group-mates Vishal, Shimayali, Nitesh, Vishnu, and Shashank for being a good friend and for wonderful silly days

Special thanks go to NABI Hostel and wardens for providing me fantastic lodging and their innumerable help during my PhD.

My sincere and heart full thanks extended to the Prof. Prasad V Bharatam, NIPER, Mohali for providing help in performing experiments. I am very much indebted to Mrs Neha Tripathi NIPER, Mohali, for his support in performing molecular docking and dynamics related experiments.

I wish to extend my gratitude to everyone, who had contributed directly or indirectly to my thesis.

Stanzin Angmo
