ACKNOWLEDGEMENT

I express my deep gratitude to Professor A.Konar, Department of Mathematics, University of Kalyani, Kalyani and Professor H.P. Mazumdar of Physics and Applied Mathematics Unit, Indian Statistical Institute, Kolkata for their invaluable supervision and guidance in completing the thesis.

I am grateful to Professor B.S. Dandapat who kindly spared his valuable time in introducing the basics of the subject of research to me and help in solving out some problems.

I express my sincere gratitude to Dr. K. Haldar, former Associate Professor of Physics and Applied Mathematics Unit, Indian Statistical Institute, Kolkata for his constant inspiration regarding my research work.

I also acknowledge my keen gratitude to S. Roy of Physics & Applied Mathematics unit of Indian Statistical Institute for his valuable suggestions and encouragement.

I would like to express my sincere thanks to R.C. Bhattacharya, former Director of Technical Education, Government of West Bengal for awarding the scope to carry on the research work.
It is a pleasure for me to acknowledge my heartiest gratitude to R.N. Ghosh, Principal, Purulia Polytechnic, Purulia for his support in connection with my research activity.

I express my sincere thanks to the present Officer-in-charge, Sri L.B. Singh of Purulia Polytechnic, Purulia for giving me valuable suggestion to submit the thesis in order to obtain a Ph.D. degree.

Lastly, I will never forget the patience and endurance exhibited by my old father Gangadhar, mother Urmila and wife Subhadra for a long period during the research work when I could pay least attention to them.

Bidyapati Kumar
Lecturer in Mathematics
Purulia Polytechnic, Purulia
Government of West Bengal
P.O.-V.Nagar, Dist-Purulia
