ACKNOWLEDGEMENT

First of all, I would like to bow my head in humble obeisance to Almighty God who gave me the nerve and courage to withstand succumbing pressure of arduous difficulties in completing this uphill task. In the process, I learnt to be patient, humble and hopeful that with one more step, one more try, I am going to succeed. I pray to him to guide me to the right path at all times.

I wish to express my heartfelt gratitude to my supervisor, Prof. S.K. Jain (Head, Department of Biotechnology, Jamia Hamdard) for his constant encouragement, valuable guidance and moral support during the course of this study. I shall deeply value and treasure his training and constant scrutiny that gave me boundless energy and taught me how to face a problem head-on. His never-say-die attitude is a fountainhead of inspiration for me.

I offer my sincere thank to Prof. M.Z. Abdin (Dean, Faculty of Science, Jamia Hamdard) for granting me access to his lab and humaneness.

I would like to thank the ever smiling and considerate Prof. P.S. Srivastava, for all his help and support in completing my research work.

I would like to appreciate the assistance I received from other faculty members; Dr. Farhat Afrin, Dr. Sandeep Das, Dr. Alka Narula, Dr. Saima Wajid, Dr. Humaira. I feel equally overwhelmed with deep appreciation for the entire team of academicians in this and other departments for their kindness, great support and valuable suggestions.

I would also like to thank Dr. Deepshikha Pande Katare (Head, Department of Biotechnology, Amity University) for providing much needed constructive criticism, valuable guidance.

I thank and acknowledge the financial assistance provided by Indian Council of Medical Research (ICMR) in the form Senior Research Fellowship.

I wish there was some way of showing my gratitude to Prof. Naveen Khanna at ICGEB for his tremendous support and assistance in the form of vector and the lab facilities. The splendid procedure skills and knowledge demonstrated by Gaurav Batra, especially in protein purification deserves sincere appreciation.

I wish to show my indebtedness to Dr. Rizwan Hasan Khan at Interdisciplinary Biotechnology Unit, Aligarh Muslim University, for his exceptional kindness to carry out protein characterization experiments.

I would like to offer thanks to my former labmates; Dr. Nowsheen Hamid, Dr. Seema, Dr. Pankaj, Dr. Promila, Dr. Sikander, Dr Ritesh. Thanks are due to my current labmates; Naveen Chaudhary,
Shabnam Malik, Smita Kumari and Maryam for their help and assistance throughout my journey in the lab.

I feel warmly appreciative of the unparallel love, support, encouragement and advice that I received from my dear friend and labmate, Shilpa Bhatnagar. She made the entire journey, my life in general a happy feat to recount and remember.

I am also grateful to my juniors Sapna, Aftab, Mojeer and many more for their timely support during the course of my thesis.

I am thankful to the non-teaching staff in Department of Biotechnology, Jamia Hamdard; Noor Maa’m, Ms. Sheeba, Ms. Sarika and especially Anish Cherian Sir, who provided their sincere help when needed. I must also put in a word for Diwanji and other lab attendents; Nafees, Satishji, Taufiq, Gautam, Sajid who helped me in and outside the lab on several occasion. I should thank CIF and library staff for affording their help during the pursuit of research. I take this opportunity to thank each and everyone who ever helped me here in Jamia Hamdard.

I feel fortunate to have lovable and affectionate friends Sumant, Sajal, Ankush and Jasleen. I am thankful for all their useful suggestions and for being there to listen when I needed an ear. I cherish the time we spent together.

I thank all my well-wishers and relatives back home: my grandparents, uncles, aunts, sisters, brothers and sister-in law for their love, blessings and support.

It takes both sunshine and rain to make the rainbow. My sisters, Manmeen, Harleen; brothers-in law, Jasmeet; my little nephews, Mantej, Sartej and Hurjee; provided all the sunshine that was needed to absorb the sodden track I had undertaken.

Finally, I owe immense gratitude to my parents’ without whom, it would have been impossible for me to finish this doctoral work. They have been a constant source of strength and inspiration. Their prayers, love, care, immense support and sacrifice, have helped me to overcome all the hurdles and made this road to success possible. I wish I could return them all, the infinite care and concern that they bestowed on me. I owe my life and this thesis to them.

JASMINE KAUR KHRABANDA
