Acknowledgements

I, first of all, thank Prof. Muraleedara Kurup for allowing me to carry on with the specific problem of cyanobacteria which I was dealing at Barkathullah Viswavidyalaya, M.P. He was an excellent guide and mentor for the whole span of my work. Prof. S. Sashidhar, Director, School of Biosciences has always been a motivating factor behind me. I extend gratitude to him.

Professors, Readers and Lecturers of Barkathullah University remain always one of the inspiration for me. I can't call of Ph.D work unless I mention Prof. Santhosh Kumar, Prof. D.K. Belsare, Prof. Mohammad Ovias, Prof. Arun Raghuvanshi, Prof. Sasikala Belsare, Dr. Vinay K. Srivasthava, Dr. Meenashi Banerjee all of Biosciences department, Bhopal. In my brief stint at the govt. P.G.College, Chhindwara. I had an opportunity get into liminological problem of two rivers Shivnath, Kharun and Tawa reservoir. This experience helped me in all my research ventures. For that opportunity I am indebted to Prof. K.S. Unni. I have a few friends who helped to me in fulfilling the research endeavour a success. It was Päwer, Bhave, Dr. Tessy, Dr. Sheena, Dr. Mallika, Dr. Sanjay, Mr. Manohar from northern part of India. Then Manoj, Arun, Jinsu, Elizebath, Rajesh, Anil, Sandhya, Jayasree, Salomy, Jacob, Satheeshan, Latha, Lal, Togy, Sunil, Jincy all from Biosciences, M.G. University. Technical assistance from Mr. Bose, Mrs. Sherly and Mrs. Reji deserves mention.

I was lucky enough to work along with some teacher fellows of School of Biosciences, mainly Sri. Madhavan, Sri. Joseph and Mrs. Agy. Further I thank faculty of Biosciences. I find it difficult to express in words the help offered by Prof. M. Haridas, Lifesciences department of Kannur University. Dr. Vasundhara, Dr. Sreejith and fellow teachers of Lifesciences department of Palayad Campus Kannur university, they need special mention.
Dr. Kothadaraman and his associates at Rubber Research Institute of India helped in getting the gas chromatographic analysis done. Staff members of library of M.G. University and RRII did their excellent job in my research work. Dr. Faizal of department of management studies helped in acquainting with statistical programmes. Special thanks to all professors involved during the course research study for getting specialised in (I) Agricultural Biotechnology, (II) Water Science and Technology (III) Microbial Physiology and let travel far and wide across India. Last but not the least I thank my family members for the support they have given. For neatly typing and processing the thesis I thank M/S. Minitek Computer, Athirampuzha.

Ananda Kumar A. K.
