ACKNOWLEDGEMENT

Being grateful to the help and favours received is humane. Words may not suffice to express it. But one day or other you have to word it, as words are the only means through which we can express our feelings. Finally that moment has come to word my gratitude kept beneath the heart.

At first, I bow my head before my ‘Guru’, my guide, **Dr. G. Saratchandra Raj** whose kindess, blessings and paternal affection always shower upon and inspire me whether he is far or near. His thoughtful guidance, reflective suggestions and incessant encouragement enabled me to complete this study in a fruitful manner.

**Dr. T.V. Thulaseedharan**, Professor and Director of Faculty of Education, School of Pedagogical Science was always very cordial and helpful to me. Whenever I approached him for any help he was willing to do it without any hesitation. My heartfelt thanks are due to him for his immense help and inspiring attitude.

Dr. A. Sudharma, Professor and former Director, School of Pedagogical Sciences was always willing to do any academic as well as professional help to me. I express my sincere gratitude to her for all the help done.

My sincere thanks are due to Dr. Celine Pereira, Associate Professor for her valuable and timely help in my research. My thanks are also due to all faculty members of School of Pedagogical Sciences for their help and encouragement.

I am very much thankful to Sri. Shiju Das, librarian, Sri. A.T. Anilkumar, former librarian and the office staff of School of Pedagogical Sciences.

I sincerely thank the Principals and teacher educators of those institutions for sparing their valuable time by permitting me for the data collection in a crucial time of teacher preparations.

I express my sincere thanks to the N.S.S Management, Smt. Christal Gladis, College Principal, faculty members and non-teaching staff of my college for their encouragement and co-operation.

I thank the management of St. Joseph’s Hostel, Mannanam for providing a calm and serene staying facility ideal for the intellectual pursuit for knowledge.

I express my sincere gratitude to Sri. Sugunan of Lars Computers and Sri. Jomon of ST Mary’s DTP Centre for their wholehearted and patient efforts for materializing this thesis which I felt as a service or duty more than paid job.

Friends are my strength in all my endeavours. My dear friends Anil Kumar K.P. and Sujithran were always with me throughout this research to fetch a helping hand whenever and wherever I needed it.

The success of a person fully depends on the love, care and support from his family. My family members offered all these more than one could expect. My love affection to them cannot be expressed in words.

Finally I thank all, who have encouraged and helped me through words or deeds.

Suresh K.J
