ACKNOWLEDGEMENT

There are scores of people who have actively helped me during the tenure of my Ph.D. and I would like to thank all of them for their support, efforts, and friendship.

It is just beyond words to acknowledge my immense sense of gratitude for my Guru, Dr. Sanjay G. Shirodkar for his constant support and encouragement during the course of this work. It has been an intellectually stimulating and rewarding experience to work with him. We experienced together all the ups and downs of routine work, shared the happiness of success and the depression of failure.

There are, however, several peoples that I would like to express my sincere gratitude and respect to Dr. S. P. Pachling, Head of Chemistry Department, N. S. B. College, Nanded for his constant support.

I sincerely thank Dr. D. P. Vaidya, The principal, of N. S. B. College, Nanded and the hon'ble Members of management, A.B.S.S. Nanded for allowing me to carry out research work and extending me all the possible infrastructural facilities.

I wish to thank Mr. Suryavanshi W. V., The principal, B. S. College, Basmathnagar and hon'ble Members of management, for continuous support and encouragement.

I would like to thank Dr M. B. Swami, Dr. A. S. Kulkarni, and my college teachers without whose excellent guidance and encouragement, it would have been impossible for me to reach this platform.
I will be failing in my duties if I do not mention my gratitude to Mrs. Sunita S. Shirodkar for her hospitality, loving and caring nature always.

It is really very difficult to express my immense sense of gratitude for my wife Sow. Rekha. It is due to her support and encouragement only that I have been able to complete this huge task. I am really thankful to her for being so patient and showered all the time the needed support to me. Above all I am grateful to my brother Suresh, sister Anita and to my beloved daughter Mayuri and my charming son Sagar who I know, actually has suffered in all these years of my study. They contribute a lot in their own way in the completion of this work and their unconditional support and love.

I take this opportunity to express my sincere gratitude to Dr. W. N Jadhav, Dr. N. N. Karade, Dr. R. P. Pawar, Dr. Shinde S.V. and Dr. G. S. Rashinkar, and for their valuable help during my research work. I am extremely thankful to my research associates Mr. S.P. Hangirgekar, Mrs. P.P. Joshi, Mr. G.B. Pande, Mr. S.S. Chandole, Mr. R. Vidule, and Mr. D.R. Munde.

I am also thankful to Dr. A.G. Peshwe, Dr. J.S. Jadhav, Mr. Raviraj Whanale, Mrs. Kotgire and Mr. Ravande Joshi for their valuable suggestions and help.

May 2008

B. M. Dhoot
