ACKNOWLEDGEMENT

With great respect, honour, pride and immense pleasure I express my profound sense of gratitude to my esteemed guide Dr. A. Puratchikody, M. Pharm., Ph.D, Assistant Professor, Department of Pharmaceutical Engineering and Technology, Bharathidasan Institute of Technology, Bharathidasan University, Trichirappalli for her eminent guidance, immense inspiration, valuable advice and encouragement throughout the work. It is fortunate to work with such a versatile and dynamic personality during this project.

I am elated to place on record with a sense of gratitude and indebtedness to Dr. Mukesh Doble, Professor and Head, Department of Biotechnology, IIT Madras, Chennai whose valuable guidance made the research successful.

I would like to express my special thanks to Dr. K.Ruckmani, Prof and Head, Department of Pharmaceutical Engineering and Technology, Bharathidasan Institute of Technology, Bharathidasan University, Trichirappalli for allowing me to carry out the research work.

I sincerely thank and extend my whole hearted gratitude towards Dr. Grace Ratnam, M.Pharm, Ph.D., Director, C.L. Baid Metha College of Pharmacy, for her keen interest, constant encouragement and support during the course of the work.
I owe my gratitude towards Dr. Shantha Arcot, M.Pharm., Principal and Head, Department of Pharmaceutical Analysis, C.L. Baid Metha College of Pharmacy, for her timely advice and support.

Words do not suffice to express my indebtedness to my beloved friend Dr. R. Vijayabharathi, M.Pharm, Ph. D, Assistant Professor, Madras Medical College, Chennai.

I would like to express my special thanks to Dr. C. N. Nalini, Department of Pharmaceutical Chemistry, Mrs. Nazeem Mehkari, Department of Pharmacology, Mrs. G. Uma, Department of Pharmaceutical Analysis, for their constant support and massive boost up in various steps throughout the project work.

I also express my thanks to Mr. A. Shanmugarathinam, Assistant professor, Anna University of technology, Trichirapalli for his timely help.

I convey my thanks to Mr. R. Narayanan, Assistant Professor, Department of Microbiology, Madras Medical College, for his assistance to carry out the Leptospirosis studies.

I owe my sincere thanks to Dr. D. Niranjali, Prof and Head, Department of Biochemistry, Madras University, for her assistance to carry out the enzyme inhibition studies.

I also convey my thanks to Miss. J. Mohanapriya, Mrs. S. Hema Iswarya, Mr. M. Vignesh and Mr. R. Sivakumar
Department of Biotechnology, IIT Madras, Chennai for their assistance to carry out the QSAR studies.

My special thanks Mrs. H. Rani, Mrs. R. Manimekalai and Mrs. A. Shanthi Lab-Attenders for their kind cooperation and assistance during my research study.

I convey my heartfelt thanks to Mrs. A. Dhanalakshmi, C.L. Analytical lab for her support and help in IR spectral studies.

I convey my heartfelt thanks to staff members of SAIF, IIT Madras for their support and help spectral studies.

I also extend my thanks to Mr. G. Prakasam Librarian, C.L. Baid Metha College Of Pharmacy, for his assistance during the literature survey. I wish to heartily thank sincerely to one and all who have helped me during this dissertation.

Words do not suffice to express my indebtedness to my beloved family members who stood by my side at all times giving me the necessary encouragement and moral support. My Special thanks to my son A. Kishore vengat and my daughter A. Roshini.

The acknowledgement would not be complete if I don’t mention my dear father whose heavenly soul helped me to finish the thesis.

N.Ramalakshmi
