Abstract                                               06

## I. INTRODUCTION

1.1 Introductions 
1.2 Objectives                                        45  
1.3 Scopes                                             45  
1.4 Research methods                                   47  
1.5 Importance                                         50  
1.6 Statements                                         51  

## II. LITERATURE REVIEW

53

## III. RESEARCH METHODS

3.1 Research Designs                                   107  
3.2 Method                                             107  
3.3 Sample                                             108  
3.4 Procedure                                          109  

## IV. DATA ANALYSIS

4.1 Results

## V. SUMMARY & SUGGESTIONS

5.1 Summary                                            235  
5.2 Conclusion                                         240  
5.3 Recommendation                                     241  
5.4 Further study                                      252
