Acknowledgement

First and above all, I praise God, the almighty for providing me this opportunity and granting me the capability to proceed successfully.

Dr. E. Natarajan, Assistant Professor, Department of Botany, National College (Autonomous), Tiruchirappalli – 620 001, my esteemed promoter, my cordial thanks for accepting me as a Ph.D. student, exemplary guidance and for giving me the chance to learn and challenge the new things. I owe him lots of gratitude for having shown this way of research. Besides of being an excellent supervisor, he was as close as a brother and a good friend to me. I am really glad that I have come to get know him in my life.

Dr. N. Agnel Arul John, Assistant Professor, Department of Biochemistry, Srimad Andavan Arts and Science College (Autonomous), Tiruchirappalli – 620 005, I grateful forever for his inspiration, motivation, encouragement and critical suggestions during the entire course and spending his precious time in scrutinizing my work, and this work would have not been possible without him.

I gratefully acknowledge my Doctoral Committee Member Dr. A. Antony Joseph Velangannya, Assistant Professor, Department of Biochemistry, Bharathidasan University, Tiruchirappalli – 620 024 for his valuable suggestions, personal attention and untiring help throughout my research tenure.

Special thanks are also given to UGC-BSR Emeritus Profesor, Dr. A. Ganapathi, Department of Biotechnology, Bharathidasan University, Tiruchirappalli – 620 024. His encouragement and help made me feel confident to fulfill my desire and to overcome every difficulty I encountered.

I am also extremely indebted to Dr. L. Arnold Wilson, Retired Professor of Department of Botany, St. Joseph’s College (Autonomous), Tiruchirappalli and Dr. A. Prema Suganda, Retired Professor of Department of Zoology, Holy Cross College (Autonomous), Tiruchirappalli for their valuable suggestions and guidance, which enabled me to notice the weaknesses of my thesis and suggested possible improvements.

It gives me the great pleasure in acknowledging the support of Shri. K. Raghunathan, Secretary, National College (Autonomous), Tiruchirappalli, for providing the infrastructural facilities and moral support to carry out my research work.
I want to express my deep thanks to esteemed Secretary and Correspondent, Shri. N. Kasthurirangan, Srimad Andavan Arts and Science College (Autonomous), Tiruchirappalli – 620 005 for his untiring motivation to complete the Ph.D. and also for provide the excellent research centre - SRRCARB for research work.

It is with immense gratitude that I acknowledge the support of Dr. K. Anbarasu, Principal, National College (Autonomous), Tiruchirappalli, as a Head of the Institution who provoked and kindled my research attitude.

I wish to express my warm and sincere thanks to Dr. J. Rhadika, Principal, Srimad Andavan Arts and Science College (Autonomous), Tiruchirappalli – 620 005 for her supportive, inspirational and patient guidance throughout the course of my work.

I owe my profound thankfulness to Dr. V. Kannan, Head, Department of Botany, National College (Autonomous), Tiruchirappalli – 620 001, for his excellent support and encouragement at every steps of my Ph.D. work.

I express my profound thanks to Dr. M. N. Abubacker, Head of the Department of Biotechnology, National College (Autonomous), Tiruchirappalli – 620 001, for his encouragement for research work.

I express my immense gratitude to Dr. B. Muthukumar, Associate Professor, Department of Botany, National College (Autonomous), Tiruchirappalli – 620 001 for his constant support and encouragement throughout my Ph.D. work.

I also express my sincere thanks to Dr. S. Srinivasan, Associate Professor, Dr. V. Nanda Gopalan, Associate Professor, Dr. S. P. Anand, Assistant Professor, Dr. K. Ramar, Assistant Professor, PG & Research Department Botany, National College (Autonomous), Trichy, for their kind advice during this research work.

I would also like to extend my huge and warm thanks to Dr. S. Soosai Raj Assistance Professor, Department of Botany, St. Joseph’s College, Tiruchirappalli for plant identification and helped me to get authentication of my Ph.D. study plant.

It gives me great pleasure in acknowledging the help of Dr. T. Parimelazhagan, Professor, Department of Botany, Bharathiyar University, Coimbatore for his technical guidance, constant support, encouragement for my research work and helping me to carry out in vitro antioxidant activity in his lab.
I would like to express my gratitude to Dr. D. Natarajan, Assistant Professor, Department of Biotechnology, Periyar University, Salem for his kind support and taking care of my research work.

I would like to express my heartfelt gratitude to Dr. G. Jothi, Dean – Life Sciences and Head, Department of Biochemistry and Chemistry, Srimad Andavan Arts and Science College (Autonomous), Tiruchirappalli – 620 005 for her support, inspirational motivation and patient guidance throughout the course of my work from the beginning.

I would like to express the deepest appreciation to Dr. G. Sridharan, Assistant Professor, Department of Biochemistry, Srimad Andavan Arts and Science College (Autonomous), Tiruchirappalli – 620 005, who has shown the positive attitude toward my research and has continually and persuasively conveyed a spirit of adventure in regard to research, and an excitement in regard to teaching. Without his supervision and constant support this dissertation would not have been possible.

I am also hugely appreciative to Dr. C. Prahalathan, Assistant Professor, Department of Biochemistry, Bharathidasan University, Tiruchirappalli – 620 024 for his constant support and motivation to do my research in a positive manner.

During my research, Dr. M. Manickavasagam, Assistant Professor, Department of Biotechnology and Genetic Engineering, Bharathidasan University, Tiruchirappalli – 620 024 offered me a lot of friendly help; he transferred to me his research links and suggested to me the necessary readings for pursuing Ph.D. research. His thoughts enlightened my way of research ideas, and so I’d like to give my sincere thanks to him for his generous help.

I wish to extend my heartfelt thanks to all my colleagues, Dr. R. Sivasubramanian, Assistant Professor, Mr. K. Athes, Assistant Professor, Ms. J. Abirami, Assistant Professor, Ms. K. Keerthana, Assistant Professor, Ms. G. Shobana Assistant Professor, Mr. K. Ramesh (Lab Incharge) and Mr. M. Kadhiravan, Research Associate, Department of Biochemistry (Centre for Research), Srimad Andavan Arts and Science College (Autonomous), Tiruchirappalli for whom I have great regard, for their friendly enthusiastic support, timely help and constant encouragement.

I extend my thanks to Non teaching staff member Mr. J. Srinivasan, Mr. S. Vallavadoss, Department of Botany, National College (Autonomous), Trichy for their encouragement, suggestions and help during my research work.
I would also like to extend my sincere thanks M.Sc., students and Research Scholars of Department of Botany, National College (Autonomous), Trichy and Department of Biochemistry (Centre for Research), Srimad Andavan Arts and Science College (Autonomous), Tiruchirappalli for their valuable and timely help for this Ph.D., work.

Words cannot express how grateful I am to my parents Mr. P. Natarajan, Mrs. N. Padmavathy, brother Mr. N. Nanda Kumar, sisters especially Mrs. M. Sumathi and my brother-in-laws particularly Mr. A. Mohan for all of the sacrifices and support.

I would like express my appreciation to my beloved wife Er. K. Preetha B.Tech., and my daughter Baby R. Tanviya Aradhana.

I would also like to thank all of my friends who supported me to strive towards my goal.

With heavy heart I acknowledged Late Mr. Diraviadoss for his suggestions and his friendly assistance to select the plant.

Besides those, several others knowingly or unknowingly have helped me in the successful completion of my Ph.D. I would like to express my sincere and humble thanks to all of them for making my Research journey a cherishable and a pleasant one.

N.Ramesh Kannan
