Acknowledgements

I am very much grateful to my teacher Prof. G.S. Singhal, Dean, School of Life Sciences, Jawaharlal Nehru University, for his consistent encouragement and moral and financial support. I highly appreciate him for his scientific temperament and humanistic attitude since such good qualities are becoming rarer from our society and institutions in our hurried times. I am very much thankful to our seniormost teacher Prof. Sivatosh Mookerjee, FNA, ex-Dean of our School, for his moral support. I thank Prof. H.K. Das, presently the Head of DST unit on Genetic Engineering, JNU, and his students for allowing me to use their liquid scintillation counter whenever our liquid scintillation counter used to go out of order. It was a great pleasure to discuss irreversible thermodynamics in biology with Dr. Mohammed Amin. I am extremely grateful to my lab colleague Ranjana for her help during the experiment and for useful discussions. I thank my lab colleagues Rajeshwari, Sagarika, Padma, Sudipto, Ravindra Bhardwaj, Arun Agarwal, Perru Vijayan, Kapil, Ranjit and Shukla for their help in maintaining a good academic environment in the lab.
It gives me pleasure to acknowledge the help and friendship of Jayaraman, Narayan Murty, Asutosh Tripathy, Ravindran, Gade, Mohammed Nehal, Shabbir, Arun Sharma, Behera, Nishi, Sabat, Ashok Maurya, Deodatta, Subhendu, Selvan and Ganesan.

I am thankful to my friend Easwar for typing the thesis. I am grateful to my friend Saini for drawing the line diagrams and photographic work. The technical help of my friends Alex, Avais and Bashir is gratefully acknowledged.

I am very much obliged to my elder sister Mrs. Asha Verma and her family for their moral support, and to my parents and brothers for their much needed help. During the course of my Ph.D. work the tragic death of my youngest sister Miss. Neelam occurred. As a mark of my respect this thesis is devoted in her memory.

The financial support provided by the Council of Scientific and Industrial Research of India as well as by the United States Department of Agriculture, FG-IN-574 is gratefully acknowledged.
