LIST OF TOPICS

PREFACE — i
ACKNOWLEDGEMENTS — ii
GENERAL INTRODUCTION — 1
   Lipid Composition
   Lipid Organization
   Involvement of Lipids in Membrane Functions
   Factors Influencing Yeast Lipid Composition
      I. The nature and composition of the environment
      II. Mutants defective in lipid synthesis
      III. Various phospholipases
   Fluorescent Dyes as Probes of Membrane Composition and Function
   Scope and Plan of Work

MATERIALS AND METHODS — 43

CHAPTER I
EFFECT OF PHOSPHOLIPASE A ON THE STRUCTURE AND FUNCTION OF YEAST CANDIDA ALBICANS — 59
   Results
   Discussion
CHAPTER II
EFFECT OF PHOSPHATIDYLCHOLINE AND PHOSPHATIDYL-
ETHANOLAMINE ENRICHMENT ON THE STRUCTURE AND
FUNCTION OF YEAST MEMBRANE — 75

Results
Discussion

CHAPTER III
EFFECT OF PHOSPHATIDYLSERINE ENRICHMENT ON AMINO
ACIDS TRANSPORT IN YEAST — 96

Results and Discussion

CHAPTER IV
WHY CHOLINE SUPPLEMENTATION DID NOT ENHANCE
PHOSPHATIDYLCHOLINE LEVEL IN CANDIDA ALBICANS — 104

Results
Discussion

INERENCE — 114

LITERATURE CITED — 120

APPENDICES — vii
